11 Planning	C. While Vision 2020 (3.2.1, 3.2.2, 3.2.3, 3.2.4) focuses on communication with external partners including parents and business community, communicating the daily actions of the work of departments and work groups within the organization must flow from strategic (current state) to the operational level (desired state), ultimately all the way to the seat of a student. Create a formalized plan that focuses on two-way communication including horizontal and vertical internal communication which is harmonized across all processes and work groups to support organization-wide goals. As part of this formalized internal communication plan, there should be accountability for execution of this plan at all levels (e.g., superintendent, cabinet members, assistant superintendents, middle level management, school administrators, teachers).								
12 Planning	C1. 1	Financial - School A. As evidenced by information gathered during school level interviews, communication is lacking from Central Office to school level personnel. Most Principals expressed the disadvantages of having Area Assistant Superintendents with 25 schools under each one. Communication is an area of much needed improvement. Transparency is a vital key to success and this is not observed in the JCPS network.

13	Financial - School	D. It is recommended that the district provide training to school level personnel for schools that receive funding through grants, so that someone at the school-level will have an in-depth understanding of the financial handling of grants and able to provide supporting documentation relating to the grant upon request during an external audit. The documentation surrounding grants may be maintained and controlled at the Central Office level; however, a basic understanding of the processes involved for the grant funded employees should exist at the school level. 18	Financial - School	E. It is recommended that the assistant Principals and teachers receive annual training on Redbook activities that govern school activities as it is not merely enough to educate bookkeepers in this area. For example, because multiple receipt forms begin in the classroom, it is important that teachers receive adequate training on multiple receipt procedures. Providing others with knowledge in this area will also help matters in the event a school bookkeeper should take leave unexpectedly, or during a replacement period if one leaves their place of employment.

1 Instruction Management	A. While Vision 2020 (3.2.1, 3.2.2, 3.2.3, 3.2.4) focuses on communication with external partners including parents and business community, communicating the daily actions of the work of departments and work groups within the organization must flow from strategic (current state) to the operation level (desired state), ultimately all the way to the seat of a student. Create a formalized plan that focuses on two-way communication including horizontal and vertical internal communication which is harmonized across all processes and work groups to support organization-wide goals. As part of this formalized internal communication plan, there should be accountability for execution of this plan at all levels (e.g., superintendent, cabinet members, assistant superintendents, middle level management, school administrators, teachers).

7	IDEA B. (IDEA #1) The district lacks clear, district-wide processes and coordinated systems of accurate collection, reporting, and utilization of student level behavior data. There is a clear disconnection between the collection of the data and its use for implementing a district-wide approach to student discipline, including the behavior supports necessary for successful implementation. Without appropriate positive behavior supports to address behaviors that impede learning, the district does not meet the standard required under 707 KAR 1:320, Section 5(2)(a).								
8	IDEA B1. Develop and implement a monitoring and evaluation process to ensure execution of behavior data entry and analysis protocols	DeFerrari	10/01/18	10/01/20	Monthly	IDEA Protocol B1 attached. Behavior data is monitored weekly. Assistant Superintendent for Culture and Climate communicates directly with those making behavior entries when information appears to be incorrect. Corrections are made as needed with a follow-up email to John Ansman to communicate that changes/corrections were made. Level Assistant Superintendents receive monthly reports regarding behavior data and behavior data entry for their assigned schools.	Monthly behavior data has been reviewed in the following areas: arrests, restraints (SCM), assaults, seclusion, suspension narrative, suspension coding, and errors on the DMC. Protocol and agendas for these reviews have been added as evidence.	●

5	<input type="checkbox"/> SCM B. There is a significant lack of understanding throughout the district regarding 704 KAR 7:160, Use of Physical Restraint and Seclusion in Public Schools. As a result of this lack of understanding, the district maintains policies and procedures regarding physical restraint and seclusion that are inconsistent with the regulation (e.g. school resource officers not trained in positive behavioral supports and interventions). Interviews and observations indicate the prevalence of physical restraints such as mechanical, prone or supine restraints as well as unnecessary use of physical restraint and seclusion where the student's behavior did not pose an imminent danger of physical harm to self or others, in direct violation of 704 KAR 7:160.
