## Phase One: Continuous Improvement Diagnostic

### Continuous Improvement Diagnostic

**Rationale:** The purpose of this diagnostic is to encourage thoughtful reflection of a school's current processes, practices and conditions in order to leverage its strengths and identify critical needs.

#### Part I:

1. Using the results of perception surveys (e.g., TELLKY, eProve™ surveys\*) from various stakeholder groups, identify the processes, practice and conditions the school will address for improvement. Provide a rationale for why the area(s) should be addressed.

\*eProve™ surveys employ research-based questions that produce useful, relevant results, empowering institutions to turn knowledge into practice. These surveys are accessible to all schools and districts and monitor stakeholder perceptions in the areas of communication, continuous improvement, and improvement initiatives. Additionally, surveys empower you to capture stakeholder feedback, target professional development, identify areas of strengths and weaknesses, monitor progress of improvement, and focus improvement initiatives and student achievement.

TCHS will continue to deepen teachers content knowledge according to needs identified through the 2017 Teacher TELL survey. Growth Days, PLC's and summer PD will be used for teachers to continue to deepen their content knowledge through personal learning provided in each content area.

#### Part II:

2. How will the school engage a variety of stakeholders in the development of a process that is truly ongoing and continuous? Include information on how stakeholders will be selected and informed of their role, how meetings will be scheduled to accommodate them and how the process will be implemented and monitored for effectiveness.

Trigg County High School (TCHS) will create adhoc committees to ensure that all stakeholders will be included in the discussion, collection of evidence and decisions.

## Phase Two: The Needs Assessment for Schools

### Understanding Continuous Improvement: The Needs Assessment

**Rationale:** In its most basic form, continuous improvement is about understanding the **current state** and formulating a plan to move to the **desired state**. The comprehensive needs assessment is a culmination of an extensive review of multiple sources of data collected over a period of time (2-3 years). It is to be conducted annually as an essential part of the continuous improvement process and precedes the development of strategic goals (desired state).

The needs assessment requires synthesis and analysis of multiple sources of data and should reach conclusions about the **current state** of the school/district, as well as the processes, practices and conditions that contributed to that state.

The needs assessment provides the framework for **all** schools to clearly and honestly identify their most critical areas for improvement that will be addressed later in the planning process through the development of goals, objectives, strategies and activities. As required by Section 1008 of the Every Student Succeeds Act (ESSA), Title I schools must base their program upon a thorough needs assessment.

## Protocol

Clearly detail the process used for reviewing, analyzing and applying data results. Include names of school/district councils, leadership teams and stakeholder groups involved. How frequently does this planning team meet and how are these meetings documented?

Data has been reviewed by SBDM members, teachers and staff. The Success Team will review data related to Students with Disabilities population to address classification of Targeted Support and Improvement (TSI). SBDM participated in a joint SBDM/Board meeting, specifically focusing on the supporting students with disabilities and increasing their likelihood of success in school and beyond through a National School Reform Faculty (NSRF) Dilemma Protocol. Success Team will meet quarterly with documentation in a shared Google document.

### **ATTACHMENTS**

## Current State

Plainly state the current condition using precise numbers and percentages as revealed by past, current and multiple sources of data. These should be based solely on data outcomes. Cite the source of data used.

**Example of Current Academic State:**

- 32% of gap students scored proficient on KPREP Reading.
- We saw a 10% increase among gap students in Reading from 2017 to 2018.
- 34% of our students scored proficient in math compared to the state average of 47%.

**Example of Non-Academic Current State:**

- Teacher Attendance: Teacher attendance rate was 87% for the 2017 school year – a decrease from 92% in 2016.
  - The number of behavior referrals has decreased to 198 in 2018 from 276 in 2017.
- 10% of Students with Disabilities scored Proficient or Distinguished in Reading and Math on the Junior ACT. 18.2% of African American Students scored Proficient or Distinguished in Reading and Math on the Junior ACT.

**ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

## Priorities/Concerns

Clearly and concisely identify areas of weakness using precise numbers and percentages as revealed by the analysis of academic and non-academic data points.

**Example:** 68% of gap students scored below proficiency on KPREP test in reading as opposed to just 12% of non-gap learners.

90% of Students with Disabilities scored below proficiency on the ACT test in Math and Reading as opposed to 58.9% of the overall population.

### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

## Trends

Analyzing data trends from the previous two academic years, which academic, cultural and behavioral measures remain significant areas for improvement?

Students with disabilities and African Americans continue to score significantly below the school average in Reading and Math.

### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

## Potential Source of Problem

Which processes, practices or conditions will the school focus its resources and efforts upon in order to produce the desired changes? Note that all processes, practices and conditions can be linked to the six Key Core Work Processes outlined below:

[KCWP 1: Design and Deploy Standards](#)

[KCWP 2: Design and Deliver Instruction](#)

[KCWP 3: Design and Deliver Assessment Literacy](#)

[KCWP 4: Review, Analyze and Apply Data](#)

### **ATTACHMENTS**

Please be sure to upload the files in the Attachments section at the end of the diagnostic.

## Strengths/Leverages

Plainly state, using precise numbers and percentages revealed by current data.

**Example:** Graduation rate has increased from 67% the last five years to its current rate of 98%.

The Trigg County High School graduation rate has increased from 91.5 in 2016-17 to 93.2 in 2017-18.

## Phase Three: Comprehensive Improvement Plan for Schools

### Comprehensive Improvement Plan for Schools

**Rationale:** School improvement efforts focus on student needs through a collaborative process involving all stakeholders to establish and address priority needs, district funding, and closing achievement gaps between identified subgroups of students. Additionally, schools build upon their capacity for high-quality planning by making connections between academic resources and available funding to address targeted needs.

**Operational definitions of each area within the plan:**

**Goal:** Long-term three to five year target based on Kentucky Board of Education required goals. Schools may supplement with individual or district goals.

**Objective:** Short-term target to be attained by the end of the current school year.

**Strategy:** Research-based approach based on the six Key Core Work Processes designed to systematically address the process, practice or condition that the school will focus its efforts upon in order to reach its goals/objectives.

**Activity:** The actionable steps used to deploy the chosen strategy.

**Key Core Work Processes:** A series of processes that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

**Measure of Success:** The criteria that you believe shows the impact of our work. The measures may be quantifiable or qualitative, but they are observable in some way. Without data on what is being accomplished by our deliberate actions, we have little or no foundation for decision-making or improvement.

**Progress Monitoring:** Is used to assess the plan performance, to quantify a rate of improvement based on goals and objectives, and to evaluate the effectiveness of the plan.

You may enter an optional narrative about your Comprehensive Improvement Plan for Schools below. If you do not have an optional narrative, enter N/A.

# Comprehensive Improvement Plan for Schools

## Rationale

School improvement efforts focus on student needs through a collaborative process involving all stakeholders to establish and address priority needs, district funding, and closing achievement gaps between identified subgroups of students. Additionally, schools build upon their capacity for high-quality planning by making connections between academic resources and available funding to address targeted needs.

## Operational definitions of each area within the plan

**Goal:** Long-term three to five year target based on Kentucky Board of Education required goals. Schools may supplement with individual or district goals.

**Objective:** Short-term target to be attained by the end of the current school year.

**Strategy:** Research-based approach based on the 6 Key Core Work Processes designed to systematically address the process, practice or condition that the district will focus its efforts upon in order to reach its goals/objectives.

**Activity:** The actionable steps used to deploy the chosen strategy.

**Key Core Work Processes:** A series of processes that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

**Measure of Success:** the criteria that you believe shows the impact of our work. The **measures** may be quantifiable or qualitative, but they are observable in some way. Without data on what is being accomplished by our deliberate actions, we have little or no foundation for decision-making or improvement.

**Progress Monitoring:** is used to assess the plan performance, to quantify a rate of improvement based on goals and objectives, and to evaluate the effectiveness of the plan.

## Guidelines for Building an Improvement Plan

- There are 6 required District Goals: Proficiency, Separate Academic Indicator, Achievement Gap Closure, Graduation rate, Growth, and Transition readiness.
- There are 5 required school-level goals:  
For elementary/middle school: Proficiency, Separate Academic Indicator, Gap, Growth, and Transition readiness.  
For high school: Proficiency, Separate Academic Indicator, Gap, Graduation rate, and Transition readiness.
- There can be multiple objectives for each goal.
- There can be multiple strategies for each objective.
- There can be multiple activities for each strategy.

1: Proficiency Goal

Goal 1 By 2021 Trigg County High School (TCHS) will increase the Proficiency score in reading and math on the ACT to 65.8 as measured by the ACT assessment.
