

BCMS 18-19

- 1. Create opportunities for every child to pursue and maximize their unique potential.**
  - a. BCMS staff will systematically build a plan to meet the following needs of our students:
    - i. Basic needs
    - ii. Mental health needs(e.g., Connectedness, self esteem, self control, confidence, resiliency, and the needs of all students)
    - iii. Physical fitness and Nutritional needs
    - iv. College and Career counseling
  
- 2. Provide high quality instruction for every student, every day.**
  - a. Daily instruction will focus on a learning target based on the standard.
  - b. Staff will create high expectations for students by having rigorous assessments aligned to authentic instruction.
  - c. Exit slips and unit assessments will be given and analyzed to differentiate instruction.

# **Create opportunities for every child to pursue and maximize their unique potential.**

- Goals: Our school helps us define, and then put goals in life within your reach.
- Counselors and extra staff: Motivating, Kind, and caring.
- College Scholarships and prep: Help with planning for college and future.
- Guest speakers and self help: They teach us about being safe online and about anxiety and depression.
- Many clubs: Access to different clubs with kind people.
- Kind and welcoming students: A good natured student body.
-

# **Provide high quality instruction for every student, every day.**

- Staff: Caring and high expectations.
- Teachers work with small groups to make sure we understand the lesson.
- Teachers teach from the learning target every day.

### **3. Reduce gap.**

- a. Gap students will be identified.
- b. Teachers will use data for intentional planning.
- c. Staff will work with academically struggling students.

### **4. Prepare BCMS students for the real world through enhancing 21st century skills and technology.**

- a. Students will participate in classroom activities that require 21st century skills (e.g., critical thinking, communication, problem solving, perseverance, collaboration, & citizenship).
- b. Students will be introduced to growth mindset and encouraged to maximize effort at all times.
- c. Staff will utilize technology to modify and redefine classroom instruction.

## **Reduce gap.**

- Teachers work with small groups to make sure we understand the lesson.
- Students have the opportunity to work and retake exit slips to show they know content.
- Counselors meet with students who need extra help.

# **Prepare BCMS students for the real world through enhancing 21st century skills and technology.**

- Access to Technology: Enhances learning abilities and tools.
- Library Media Center: Great organization and quick and simple technology assistance.
- Elective classes: They can help give people an idea for what they want for the future.
