Lesson Plans

Field Trip Rationale

4th Grade

Cedar Grove Elementary

Throughout the year, our students have been studying Kentucky's history and its geography as well as internal/external structures of plants and animals. Students will also have learned about weathering, erosion and deposition. A trip to Mammoth Cave will allow our students a first hand experience to discover and learn about one of Kentucky's greatest natural landmarks. The Mammoth Cave staff will have in class activities and a tour that will cover topics such as:

Animal Adaptations

Ecosystems

Fossils

Geology

Kentucky History

Sedimentary Rocks / Sedimentary Processes

Weathering and Erosion

As a follow-up, students will conduct an investigation on erosion and deposition.
