

UNITED COMMUNITY

Jefferson County Public Schools
February 12, 2019

Introductions

- Theresa Reno-Weber, *Chief Executive Officer*, Metro United Way
- Marland Cole, *Executive Director*, Evolve502
- Brian Longo, *Senior Account Manager*, Unite Us

The Problem

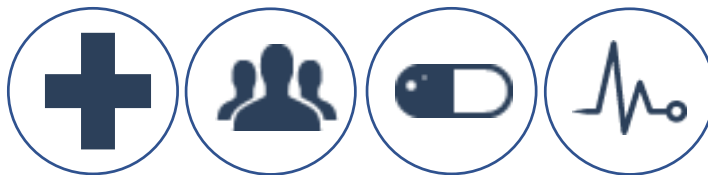

How do we get a child/family connected to multiple providers seamlessly?

Community

Government

Healthcare

1. Our school providers lose visibility to students after referral to outside providers.
2. Co-occurring health and social needs are often under-addressed across the community since providers are not connected.
3. Vulnerable students seeking care outside of the education system, leaves schools unaware of services needed to address success in education.

United Community Solution

Outcome Focused Software Addressing the Social Determinants of Health/Education

Inter-connecting education, healthcare & social services into one accountable coordinated ecosystem.

Empowering education systems & communities to work **seamlessly together** to impact every person's health and social needs.

United Community At Work

TRADING THE OLD FOR THE NEW

OLD REFERRAL

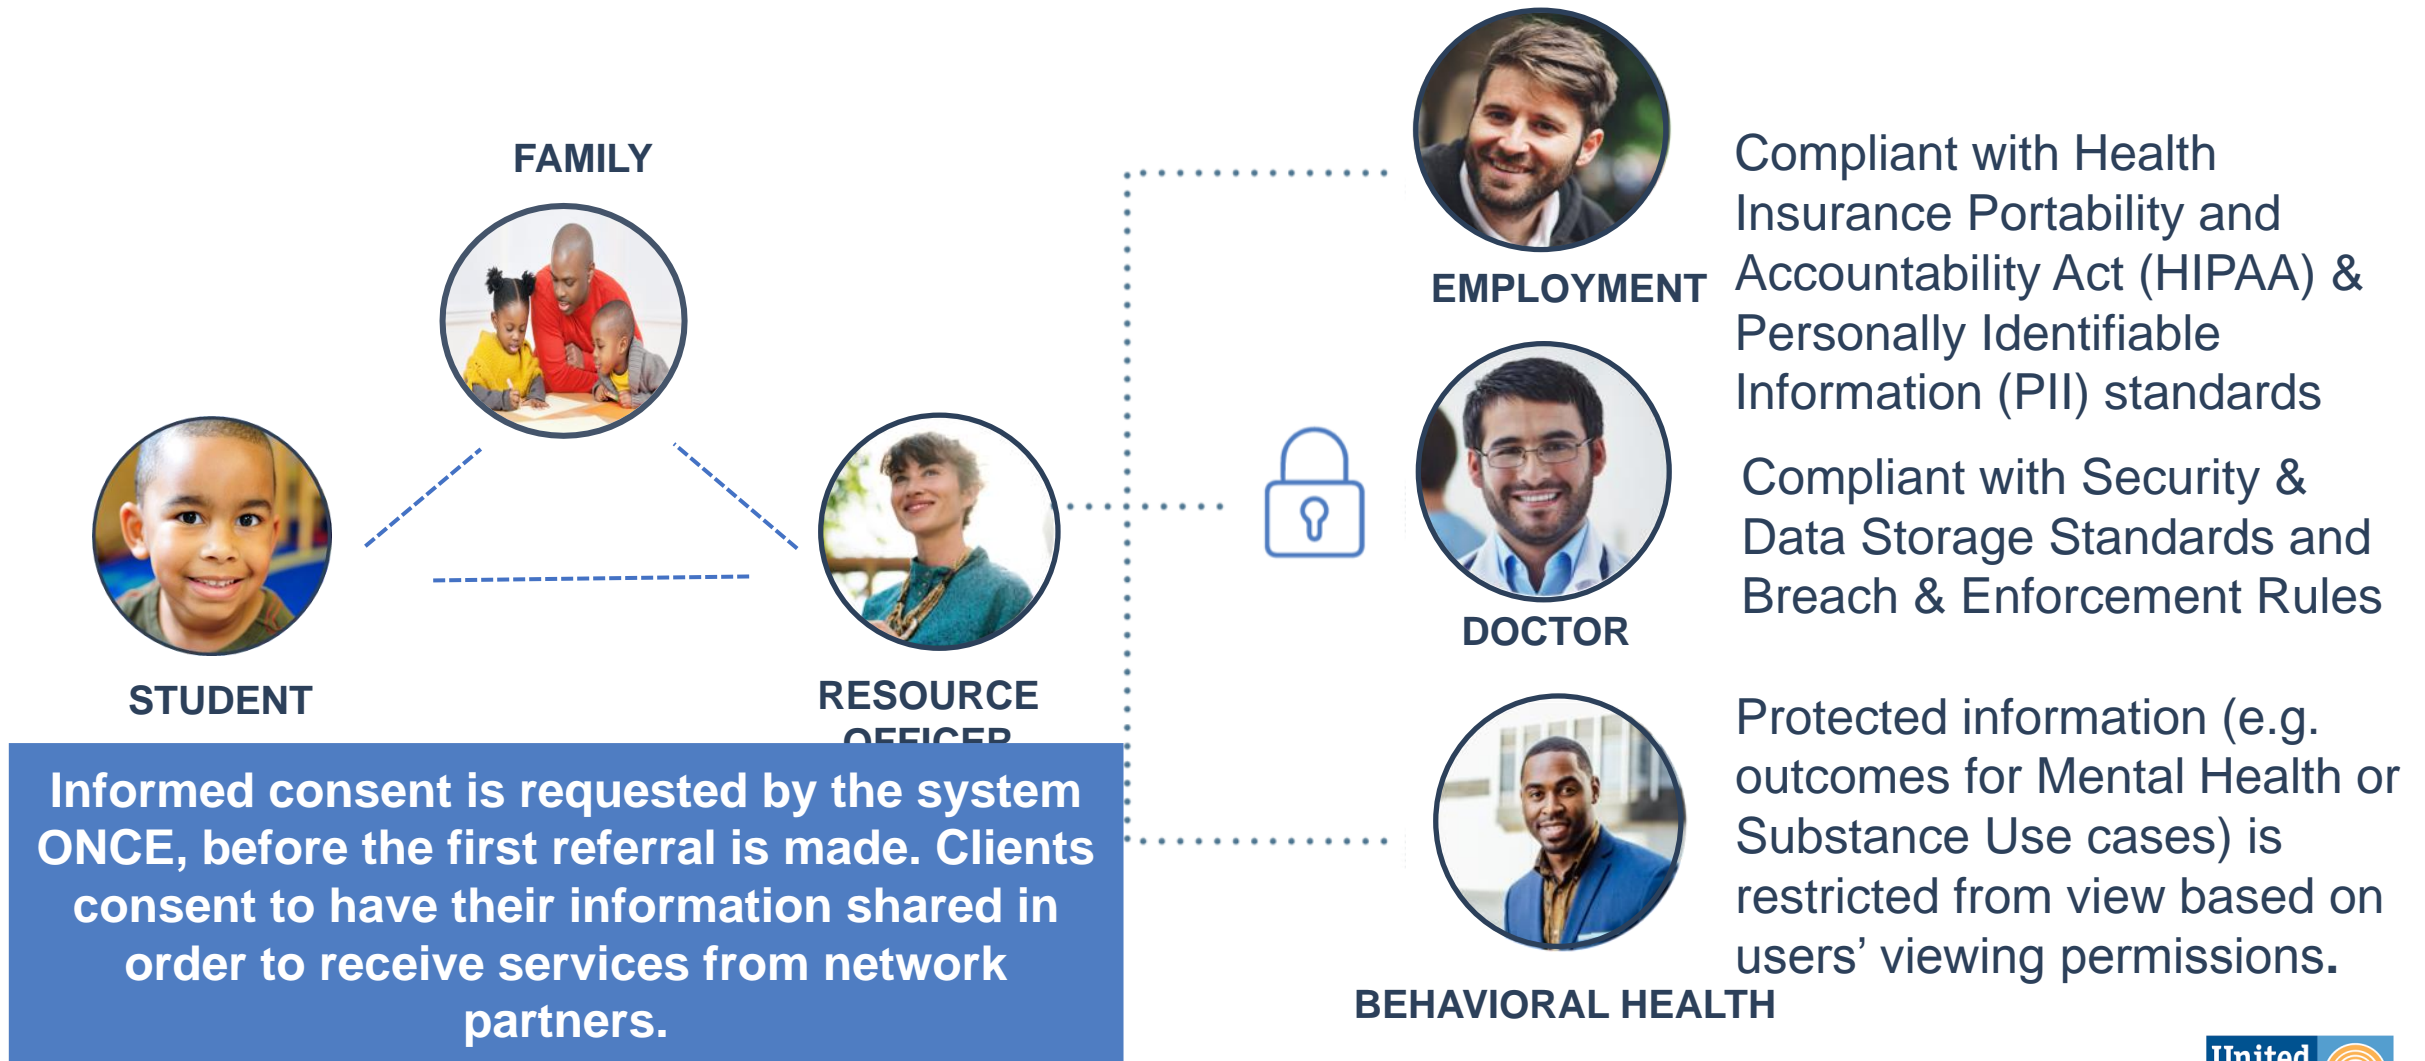

- ✗ Service provider cannot always exchange Student, Personally Identifiable Information or Public Health Information via a secure method
- ✗ Limited prescreening for eligibility, capacity, or geography
- ✗ Onus is usually on the family to reach the organization to which he/she was referred
- ✗ Service providers have limited insight or feedback loop
- ✗ Student data is siloed & transactional data is not tracked

THROUGH UNITED COMMUNITY

- ✓ All information is stored and transferred on HIPAA and FERPA compliant platform
- ✓ Student / Family is matched with the provider for which he/she qualifies
- ✓ Student's information is captured once and shared on his/her behalf with parent's consent
- ✓ Service providers have insight into the entire client journey
- ✓ Longitudinal data is tracked to allow for informed decision making by community care teams

Outcome Focused Referrals

How Will United Community Benefit JCPS students?

- Access to a connected, collaborative, community-wide system to coordinate care and services to address all social determinants of health/education
- Create “no wrong door” system whereby students have access to appropriate services based on their unique needs
- Measurably improves health, education, and wellbeing of students by coordinating the delivery of services for children and families.
- Real-time tracking and reporting of outcomes after referrals to services are made.

THANK YOU!
