Lesson Plans

Found Art- Thomas Dambo Field trip

Standard:

VA:Re9.1.6 Develop and apply relevant criteria to evaluate a work of art.

L.6.4Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 6 reading and content, choosing flexibly from a range of strategies.

Learning Target: I can create and apply a list of criteria to evaluate found art.

I can clarify the meaning of unknown words using Quizlet.

Essential question: How does one determine the criteria to evaluate a work of art?

Directions:

(Prior to this lesson students have used found materials to create a dream classroom)

After the bellringer, we will look at a picture of Thomas Dambo's work samples and create a list of words to describe it while I provide some background information on the artist.

They will then do a Quizlet over art terms that are used to critique artwork as a refresher. We will then revisit Danbo's sculptures and each group will create a criteria item based upon the vocabulary to evaluate his work.

Then students will look at one of many different forms of art(sculpture, abstract painting, Pop art, charcoal drawing, etc). First, they will brainstorm a list of words to describe each piece and then, within their group of three, a list of criteria to evaluate their assigned piece. Using a rotation, students will rotate through the classroom using their classmate's listed criteria to evaluate the artwork samples.

With the list created as a whole class, students will evaluate Danbo's Giant sculptures using found and recycled materials at Bernheim Forest. Upon returning, they will write up an art critique of his works viewed.
