		PRICE: \$27,921.60
	High Gymnasium Audio system upgrade	

1 Implementation

Customer's existing system needs updated equipment due to usage and age of electronics. The following system is designed to replace and Expand on the system for better sound quality than what had been in the current system. Additional speaker will be installed to meet the areas where the sound is not being heard clearly. Primarily in the Floor area.

The following deliverables are covered under this scope of services

- Furnish and install qty. **(24) new** 12 by 2-way Powered Loudspeaker with 2000-watt amplifier.
- New speaker installation will include the following features
 - Best in class audion performance.
 - 2000 Watt Class-D amplifier module.
 - Intrinsic Correction™ tuning and loudspeaker management.
 - DMT™ (Directivity Matched Transition) design provides excellent power response and consistent performance across the listening area.
 - Refined, professional appearance looks for application.
 - Rugged ABS enclosure for long life and lasting durability.
 - Mult-function digital display for control and selection of loudspeaker functions including cross-over, EQ, delay and frequency control.
 - 6-Year Warranty (with product registration).
 - Furnish and install new 8 channel Digital Mixing Board for better sound experience.
- Reconnect the existing microphnes and input devices.
- Reuse the existing Audion Distribution amplifier.

2 Project Constraints & Assumptions

- All Labor and Materials are included for the above scope.
- Getronics will use the power supplied by customer for the speakers.
- All connections, programming, and setup will be performed by Getronics.
- Existing signal cabling is to be used for installation. Any broken damage or unusable cabling may result in additional repair cost.
- All work will be performed during normal work hours, M-F 8:00-5:00.
- Pricing assumes all work will be performed contiguously with unfettered access to facilities.
