Harrodsburg, KY 40330

To Whom It May Concern:

I am a member of the Harrodsburg Kiwanis Club. This sole purpose of this civic organization is to serve the children of the community. There are several committees within this organization with varied focuses. A newly developed committee is the Summer Program Committee. The purpose of this committee is to reach out to certain age groups (middle school this year) with summer activities that will stimulate their minds and entertain them outside of electronic devices of any kind. This year, we are planning activities on a day trip to Little Wing Hollow, July 9, 2019, for canoeing, kayaking, hiking art trails, learning about nature conservation and games. We are also hoping to make a day trip to Shaker Village for boat ride, archery, gardening, and other fun activities. The date of this trip is yet to be determined.

As the Chair Person of this committee, I am coming to the Board of Education with a transportation need. Because these activities are not only going to be fun, but educational, we are hoping that the school would be willing to allow us the usage of a bus that would transport approximately 50 people. This would be no more than 40 middle school students and a combination of up to 10 High School Key Club students and adult chaperones. We are aware that we will have to pay for the service, but we are hoping to utilize the service for the most minimal cost possible.

I am available for questions regarding our summer project and the need for the transportation. I look forward to hearing from you soon.

Thank You,
