Re: KFICS – Christian Co. High School / Hopkinsville H.S.
SCB Project No. 1479

Dear Brad:

Thank you for the opportunity to continue our relationship with Christian County Schools on your KFICS. To perform this work, Sherman Carter Barnhart (SCB) will make on-site visits to Christian County High School and Hopkinsville High School to review the physical conditions of the facilities and complete all required KDE input associated with KFICS.

The KDE-prescribed fee for the A/E evaluations is \$.05 per square foot of total building area. The two high schools have a total building area of 398,287 square feet. The corresponding fee would be \$19,914.35. In consideration of our valued relationship with you and the board of education and considering we are already working in Hopkinsville, we propose a reduced lump sum fee of \$10,000.00. The corresponding discount value is \$9,914.35.

Upon your review and acceptance of this proposal, please sign below and return to me by e-mail. Should you have any questions, please do not hesitate to call.

Thank you again!. We look forward to working with the Christian County Board of Education on this KFICS and in the future.

Sincerely,
