City:	Shepherdsville
State:	KY

Destination

Name:	The Parklands of Floyds Fork
Address:	Beckley Creek Pkwy, 40245
City:	Louisville
State:	KY

Lesson Plans

With the Outdoor Classroom, educators at The Parklands offer both in-classroom and out-of-doors learning experiences that lead to understanding of our Kentucky landscape and the creatures that grow and live within it. The core purpose of the Outdoor Classroom is to teach science and natural history education through dynamic experiences in the field that stimulate curiosity, critical thinking and discovery. We invite your students to become landscape detectives, exploring the world around them to gain a better understanding of the interconnections of our local landscape, and its role in the history of our area. We envision a future in which all people view themselves as life-long learners, and share a connection to and appreciation for the natural world, their community and each other. The Outdoor

Classroom is Louisville's newest outdoor STEAM center (Science, Technology, Engineering, Arts and Math), an outdoor educational experience utilizing natural history, arts education, and exploration to teach science.
