RE: Electrical Donation from Sant Rosa Systems

Santa Rosa Systems has donated three industrial electrical boxes with assorted relays and controllers to the Bullitt County Area Technology Center. The Santa Rosa electrical department will be providing some schematics for wiring that will train students on industrial wiring that can be used in the manufacturing systems designed by SRS.

Santa Rosa is one of our strongest partners as they have provided CO-OP opportunities for our welding students and are looking to involve students from our electrical program as well.

The value of the donated equipment is around \$1800.00. The Bullitt County ATC requests that the Bullitt County Board of Education approve this equipment donation from Santa Rosa systems for use by students in our electrical and industrial maintenance programs.

Sincerely,

Darrell Vincent  
Principal-Bullitt County ATC
