NEW SKILLS FOR YOUTH

JPMORGAN CHASE & CO.

BRAND POSITIONING

**Currently working with
students from all five high
schools to create
marketing, name and
branding materials for our
regional academies**

NEW SKILLS FOR YOUTH

JPMORGAN CHASE & CO.

What excites you about the New Skills For Youth (NSFY) collaboration?

STUDENTS' PERSPECTIVES

“It’s collaborative and brings all students across the region together.”

“I like that it brings businesses and students together through dynamic regional partnerships.”

“It reflects the fact that all of us are on a path and need help getting from A to B faster.”

“It puts us ahead of other districts in the state and gives students in our region an added advantage.”

“I like that it helps us be better prepared to meet the needs of employers in the region.”

NEW SKILLS FOR YOUTH

JPMORGAN CHASE & CO.

NEW SKILLS FOR YOUTH

JPMORGAN CHASE & CO.

We are committed to partnering with the University of Louisville to provide courses in Education & Training Pathway for the 2019-2020 school year.

The Teaching pathway will be offered at the following high schools:

Bardstown High School
LaRue County High School
Marion County High School
Nelson County High School
Thomas Nelson High School

We are committed to growing early college & career pathways over the next year throughout all program areas. Students in the region would have greater opportunities to enroll in pathways.

Automotive Technology (Marion & Nelson ATC)
Carpentry TRACK-(Marion & Nelson ATC)
Computer Aided Drafting (Marion & Nelson ATC)
Electrical TRACK-Nelson ATC
HVAC-Nelson ATC
Industrial Maintenance-Marion ATC
Information Technology-Nelson ATC
Machine Tool Technology-Marion ATC

NSFY 2.0

1. Creating economic opportunity and career mobility

- Prepare students for the future of work
- Strengthen education and training by improving collaboration between employers, educators, and post-secondary partners.
- Support developing and sharing labor market data and research to increase funding in education and training to programs that lift people out of low-wage jobs into good careers in their communities.

2. Identifying and forecasting future workplace skills

- Identify and forecast future workplace skills, and leverage that knowledge to build and accelerate opportunities for upskilling and reskilling.
