

May 18-19 dropout report

1. 18 year old black male with 15.5 credits enrolled at West Campus. This student was transitioned to West Campus after his 3rd year of high school because he was behind in credits. He turned 18 just after the 2nd semester started and his attendance became very sporadic and then in April he just stopped coming. Attempts to reach out to the student have been unsuccessful.
2. 18 year old white female with 17 credits enrolled at West Campus. She enrolled with us in February of this school year. West Campus was her 8th high school since entering 9th grade. Multiple attempts were made to develop a plan to get this student to graduation but at the beginning of April she dropped out.
3. 18 year old white female with 28 credits. This student has never had any behavioral or academic problems. When she turned 18 she left home and is believed to be living with her boyfriend in Bowling Green. At this time neither the school nor her parents have been able to make contact with her.
