(Name of local education authority)

(Address of local education authority)

(herein after referred to as the “LEA”) is done so with the intent of furthering the collaborative efforts between the parties and memorialized in the *State Interagency Cooperative Agreement Between the Kentucky Office of Vocational Rehabilitation and the Kentucky Department of Education* Division of Learning Services, Office of Next-Generation Learners as mandated in the Workforce Innovation and Opportunity Act, Title IV-Amendments to the Rehabilitation Act of 1973, Subtitle B (herein after referred to WIOA) for the benefit of transition age students age 14-21, who are OVR eligible or potentially eligible students, for the Community Work Transition Program (herein after referred to as “CWTP”).

Descriptions:

VR Eligible Students: students who have applied for VR services and met the criteria for eligibility and current order of selection.

VR Potentially Eligible Students: secondary school students, age 14-21, who are currently enrolling in CWTP’s pre-employment transition services. To participate, a participation form from the school and allowable documentation is needed. Allowable documentation may include a copy of the student’s Individualized Education Plan (IEP), 504 plan, medical documentation of their existing disability, a review of school records, a statement from school staff, or case notes documenting VR counselor observation, or a letter verifying they are a Social Security benefits recipient.

I. Purpose

To define the basic tenets of the CWTP as well as delineate and clarify the rights and responsibilities of VR and the LEA for jointly implementing and carrying out the CWTP in order to provide pre-employment transition services and transition services to students with disabilities as required in WIOA, Section 113 et al, and Section 511 et al.

II. Service Description

The CWTP is designed to assist VR eligible and potentially eligible students who have identified work as a possible desired post-school outcome and have demonstrated a need for assistance to transition from high school to post school activities, including employment. Students who may be considering work sheltered facilities earning a sub-minimum wage post high school should also participate in CWTP for experiential work opportunities. CWTP utilizes the unique services of a qualified employment specialist (herein after referred to as the “ES”) to provide:

1. Pre-employment transition services, in groups as well as individually (job exploration and counseling, work based learning experiences, post-secondary counseling, workplace readiness training in the areas of social skills and independent living, and self-advocacy instruction), and
2. Transition services, individually only (transition planning, career assessment, job development, community job placement, and post-school follow-up services).

In accordance with WIOA Sec. 113 (a) these services shall only be available to students with disabilities who are determined eligible or potentially eligible for VR pre-employment transition services as determined by the lead vocational counselor. Each service provided will have a vocational rehabilitation focus and shall not supplant any school based instructional programs deemed the responsibility of the LEA through IDEA. The goal of this program and all services provided by this program is community work exploration and employment in a competitive, integrated environment. This means (i) work that is performed on a full-time or part-time basis in a typical labor market site where people with disabilities engage in typical daily work patterns with co-workers who do not have disabilities; and where workers with disabilities are not congregated; and (ii) for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals who are not disabled.

The CWTP is designed for students with disabilities who expressed an interest in exploring work as a possible post-school goal and/or may require a community based vocational service, including the assistance of an ES in order to obtain and maintain employment. During the Pre-ETS phase students will experience and explore possible career choices available in the local labor markets across all vocational sectors. All services provided by the ES in a group or individualized setting are billed per student based on quarterly authorizations from VR. Each school will submit an application prior to the beginning of each school year.

The breakdown of available services:

Pre-Employment Transition Services:

The following services are available to students who are eligible or potentially eligible, in a group or individually. Students, age 14-21, may participate in these services while in secondary school, for multiple years and in more than one service at a time. The focus is on exposure to careers and labor market sectors in the local community. Each of these

services is pre-authorized on a quarterly basis, up to four quarters per year, and for up to 20 hours each quarter. Should 20 hours not occur during the quarter, the amount will be prorated at \$35 per hour. Services will focus on broad exposure to the local labor market opportunities, in a variety of community settings and allow the student to explore and experience possible careers that are of interest. The activities will be documented on monthly notes the ES will provide to VR by the 5th of every month.

1. Job Exploration Counseling, examples include: interest inventories, career pathways, exploring in-demand occupations, interview skills.
2. Work Based Learning Experiences, examples include: job shadowing, touring companies, job training, internships, apprenticeships, short-term employment, on the job training—learning about jobs.
3. Post-Secondary Counseling, examples include: providing information on course offerings, career options, types of trainings available, advising on academic curricula, application and admission process, completing the FAFSA, disability support services.
4. Workplace Readiness Training in the areas of social skills and independent living skills necessary to prepare for eventual employment, examples include: soft skills training, communication and interpersonal skills, financial literacy, orientation and mobility training, job seeking skills, employer expectations.
5. Self-Advocacy Instruction, examples include: rights & responsibilities, request accommodations/services/supports, communicate needs, informational interviews.

Transition Services:

The following services are available to students who are eligible for VR services and must be provided individually. Students, in their final year of high school, may participate in and progress through these services. The focus of transition services is on developing a plan to successfully exit high school and enter integrated, community employment. Each of these services is pre-authorized on a quarterly basis, up to four quarters per year. The services will target the student's strengths, preferences, interests and needs; taking into consideration the jobs available in the local labor market. The VR counselor has the final decision on any disputes on whether or not a student may continue in CWTP or what services are appropriate. The activities will be documented on Notes the ES will provide to VR by the 5th of the month following the completion of the activity.

1. Transition Planning Meeting:

Once the VR counselor has determined the student eligible for general VR services, and determines their need for the CWTP Transition Services, an authorization for a Transition Planning Meeting is sent. During this meeting, the VR counselor, the student, school personnel, family members, and ES, will plan unique, vocationally relevant activities for the upcoming year based on the students initial expressed interests. This meeting will provide guidance to the ES on the goals of the upcoming year of the students program and the expectations of the VR counselor on how the ES will assist the student in preparing for competitive work. The meeting will clarify the expectation of weekly individualized career exploration and ongoing skills assessment and

training. The ES is to work individually, on a weekly basis with the student and record the hours and activities on the monthly progress notes. This meeting will be conducted when it is determined the student has expressed an interest in going into the labor market post high school instead of a post-secondary training program. VR will pre-authorize and pay the LEA \$200 for the submitted TPM report summarizing the meeting.

2. Comprehensive Vocational Assessment:

A Vocational Assessment shall be conducted by the ES with the purpose of determining an eligible student's unique strengths, resources, priorities, concerns, abilities, capabilities, and interests as they relate to post school activities and employment in order to determine an appropriate vocational goal and future training needs. The VR Counselor will use this Assessment report to determine the student vocational goal in writing or amending the Individualized Plan for Employment (IPE). VR will pre-authorize and pay the LEA \$900 for the Vocational Assessment report.

3. Job Development:

Job Development is individualized, weekly training provided by the ES for the expressed purpose of the student attaining employment prior to exiting high school. The specific job must be of interest to the student, in a competitive integrated work environment, and reflect their IPE vocational goal. These services are pre-authorized on a quarterly basis, up to four quarters per year, and for up to 20 hours each quarter. Should 20 hours not occur during the quarter, the amount will be prorated at \$35 per hour.

4. Transition Exit Planning Meeting:

During this meeting strategies and the expectations for the remainder of the CWTP will be discussed defining the steps the ES should take to ensure the student's successful transition to post school activities and future employment success. An amended Individualized Plan for Employment (IPE) may need to be written by the VR counselor and appropriately signed by the student and/or parent/guardian, for the purpose of more clearly identifying services required to attain a successful transition and employment outcome. Adult service agency providers that address the future unique needs for the individual (for instance, independent living and/or benefits planning) should also be considered for participation. It is also during this meeting the decision should be discussed whether or not to begin the process of transitioning the student to a work sheltered facility post high school and begin the paperwork if necessary to ensure a smooth transition process. This should not prohibit the student from continuing to attempt competitive work experiences while in high school if his schedule allows for participation. This meeting should take place within the final quarter of the student's time in high school. VR will pre-authorize and pay the LEA \$200 for the ES attendance and the submission of the Transition Exit Planning Meeting Report.

5. Job Placement:

A Job Placement Report will be written and submitted for payment of \$800, once the student is working in a position that meets the guidelines and vocational goal of the IPE, the natural supports of the position allow for the ES to phase out of the job site, and the position satisfies the student. The job placement must occur prior to the student exiting high school, with the student employed competitively in an integrated environment, stable and in good standing on the job site. The Report is submitted once the student exits high school and monthly progress notes cannot be submitted for payment once the Job Placement is paid.

6. Employment Follow-up:

VR will pay for Employment Follow-up if the ES provides a report at 60 days post high school for \$200. Information will be provided on the student's current post school status, job placement, and the student has remained stable and in good standing with their employer. Should the student not attain employment that meets the guidelines above prior to exiting high school the LEA is no longer eligible for the Follow-up payment and an Adult Agency provider should be referred for continuing services post high school. Since the requirements for payment are 60 days of successful employment after training services are completed, this goal is not accomplished until after the student exits the school system and into the next fiscal year. **The service must be preauthorized before June 30.**

The VR counselor will pre-authorize all services determined to be necessary through the CMS payment system as the services are needed. VR reserves the right to return monthly progress notes prior to payment if more information is requested by the counselor, information provided on activities were deemed not vocationally relevant or appropriate, or determines a lack of sufficient documentation of the weekly activities with the student. Technical assistance should be provided to the schools if this occurs.

For VR purposes, a successful transition to employment will be considered when the student has maintained a competitive integrated employment placement consistent with the individual's strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice in the most integrated setting at minimum wage or above for a minimum of sixty (60) days after exiting school.

Exceptions or changes to the program may be necessary in extenuating circumstances and may be made if substantial documentation is provided and approval in writing is submitted by the VR Plan Administrator or Program Director.
