

## Onsite Training Packages for Guided Math

Guided Math is a format that trains teachers on techniques to use guided math groups to teach differentiated lessons based on student's skills and state standards. This framework can be utilized with any math textbooks. It integrates large group mini-lessons, small guided math groups, and interactive Engaged Math Activities to teach mathematical thinking skills. Students also practice review skills and math fact computation daily.

### **Professional Development Day**    6 hour on-site trainings

This full day training includes:

Changes in math teaching from traditional to Guided Math format

Rotation schedules

Focused Large Group mini-lessons

Using data to drive instruction for each group based on math standards and differentiation

Exact details about Guided Math Groups including pictures and videos

Planning for Guided Groups and different levels of students

Engaged Math Activities that promote complete math understanding (Some will be given out to teachers according to their grade level for immediate use in the classroom)

Spiraling Review on a daily basis

Multiple Assessments: uses and purposes

List of questions to ask during lessons to promote math thinking

Management procedures and tips

How to keep up with the grading

Specific details to integrate Guided Math with your curriculum resources/mapping

Appendices of resources

Time for teachers to begin planning Guided Math lessons with guidance from presenter

Daily and Weekly Lesson Planning forms

Certificate for PGPs or CPDUs

Ongoing support through email, phone, and website updates

\*Note\* You will be sent the workshop manual and Engaged Math Activities (by grade level) to print off for every teacher. Professional Development Workshops will follow the outline, but will be customized to fit your district's needs. (items to be customized: schedules, spiral review, technology activities, and integration of your curricular resources)

I agree to these terms of this contract for Guided Math professional development for my staff. Bauer Educational Enterprises LLC has signed below and will provide one presenter for that date, barring any natural acts of God that prohibit it. School District is bound by the same terms. Workshops cannot be cancelled by said school corporation after the contract is signed. Partial payment will be expected on day of workshops, or if paying with purchase order, within 30 days of the workshop dates. By signing below, these terms are enacted for both parties and the above dates are reserved for your school district.
