District Staff [Recommended to include CIO/DTC, TIS/DLC, technician, finance officer,	n, finance officer, superintendent, academic officer, etc.]
Mike Stone - CIO	Addonis Roy - Computer Technician
Aaron Harrell - District Instruction	Kim Saalwaechter - Director of Special Education/ Early Childhood
Building Staff [Recommended to included principals, LMS, STC, counselors, teachers,	iselors, teachers, teaching assistants, etc.]
Trisha Crabtree - Media Specialist Dixon Elementary	Elizabeth Warren - Teacher Dixon Elementary
Jennifer Holmes - Media Specialist - Sebree Elementary	Andy Corbin - WCMS Teacher
Amy HIII - WCHS Instructional Coach	Christina Whitsell - WCMS Special Education
Michael Gooch - WCMS Principal	Lori Corbin - WCHS Media Specialist

Hannah Corbin - Webster County High School Spencer Hill - Dixon Elementary

## **Previous Plan Evaluation**

In this section include a discussion of the "expiring" (previous year's) plan using the prompts below. Attempt to limit your narrative to the space provided.

What goals were met?

Most goals were met. Those listed below were not met

Goals that were not met or didn't have the expected outcomes?

management system. Not all goals were met. Webster County Schools did not create a TRT position. Not all older projectors were replaced. Did not implement OTUS Learning

Areas of improvement?

will need to be increased Technical training for staff will have to be a bigger priority moving forward, as we continue to push our 1:1 initiative to encompass all students training

Instructional Coaches will become an important role for both objectives. Personalized Learning opportunities will be dependant on coaches.

Areas/goals that are no longer relevant?

opportunities. Bring your own device (BYOD) policy is no longer relevant. Students in grades 3 - 12 will have devices all day to facilitate individualized learning

Needs that emerged after evaluation of the previous plan?

Technical issues. The needs that emerged were that Technology staffing is still not at levels that would be conducive for efficient and timely problem solving of

### **New Plan Preview**

[See Technology Planning section of KETS Master Plan for more information] This is a high-level overview or executive summary of the plan as a whole. Attempt to limit your narrative to the space provided below.

How did you and the planning team decide on the goals for this plan?

was intentional effort to create these teams based upon the diverse roles that each participant fills within the district. planning meeting to write the current plan. The 14 participants were assigned to a group based on each gear of the Future Ready Framework. There A group of 14 stakeholders that included students, teachers, principals, media specialists, technology staff participated in a District Technology

Briefly discuss the major activities slated for implementation and how these activities will advance curriculum and instruction integration, student technology literacy, professional development, & technology infrastructure.

other local monies to continue this endeavor. (VMWARE). We will continue to expand the District's 1:1 personalized learning opportunities with Lenovo Chromebooks. We plan to use KETS and We plan to continue looking at ways to enhance the district network infrastructure. We will be updating the district Virtual Server Environment

important opportunities. Additionally, there will be renewed efforts to use our library media specialist at the high school to help introduce new our new and experienced faculty to embed technology in the classroom and in the curriculum in order to improve student outcomes and provide practices and would be more involved in classrooms modeling IT practices. We plan to continue our focus on professional development related to instructional technology. The specific IT trainings we will be attending will help

#### Student Voice

build these competencies is key to effective technology planning. Please answer the questions in the space provided below information to solve complex problems, collaboration, and communication. Capturing student input about their access to opportunities that Personalized student learning allows students to develop deeper learning competencies including critical thinking, using knowledge and

by you or the district, other)? We do not have a district plan in place. Our plan is listed later in the Technology Plan. It will consist of Google forms where all stakeholders can reflect and share Do you currently have a method to collect student responses about the digital learning environment? If so, which tool (ex: BrightBytes, Speak Up, survey created

new plan. If you have a method to collect student voice for this purpose, reference specific data points from the collection that were useful in developing strategies for this ideas of the effectiveness of the current Technology plan.

# **KETS Master Plan Areas of Emphasis**

Connected to the Future Ready Framework

student learning and collaborative leadership. The KETS Master Plan has identified 37 Areas of Emphasis connected to the Future Ready emerging areas based upon growth or decline metrics, research, needs assessments, and reporting by Kentucky school districts. considered big wins, successes, and major milestones of the KETS are identified for continuation work. The "areas of improvement" address Framework and are categorized as either 1) Areas of Acceleration (AA) or 2) Areas of Improvement (AI). The "areas of acceleration" are The Future Ready Framework identifies seven Gears to assist districts in developing a roadmap for student success through personalized

Use the Areas of Emphasis and Future Ready Framework as a lens to analyze current trends, initiatives, needs and goals of your district. Link the final submission process pages. There is no expectation to address all 37 Areas of Emphasis of the KETS Master Plan. Any strategy that involves Erate, please include the work of this new plan identified by your planning team to the Gears and Areas of Emphasis of the KETS Master Plan on the following in the Budget & Resources gear. If your district has lease agreements (i.e.; device, fiber, etc.), be prepared to reference the quantity during

## Robust Infrastructure & Ecosystem

Future Ready Gear

create personalized learning environments using digital tools and resources KETS GUIDING PRINCIPLE - A robust infrastructure is one that delivers the device, network and support needs of staff and students to

Areas of Emphasis: Areas of Acceleration (AA) / /Areas of Improvement (AI)

🖤 🗚-1: Continue to provide nation's first, fastest, highest quality, and most reliable internet access to 100% of Kentucky's public schools

support structures promoting the use of personalized learning environments student digital experiences AND provide a system of shared/brokered/managed services maintaining low infrastructure costs and providing AA-2: Continue to ensure equity and standardization for delivery of device, network, data and support creating best in class staff and

with emphasis on dense Wi-Fi throughout schools (also including home access, Wi-Fi buses, school and classroom Wi-Fi, etc.) AA-3: Continue to create a culture of digital connectedness through all- the-time, everywhere, always on digital opportunity and access

AA-4: Continue to encourage the use of instructional programs and administrative processes requiring cloud-based services

amounts of mobile devices (fewer traditional computer labs) AI-1: Improve ease of access for student and staff through continued progress toward 1:1 student to computer ratio utilizing increased
