After meeting, the school textbook committee has decided that they are waiting for next year to purchase textbooks. The committee discussed the fact that the state math standards were being revised. They would like for those standards to be made available before they make a textbook decision. Also, with textbook funds being low they would like to wait and see if more money becomes available next year for textbook purchases. They would also like more time to review different texts since they were not able to do so this year due to confusion of the availability of textbook funds.

STATEMENT OF ACCOUNTABILITY

We, the undersigned, certify that this Textbook/Instructional Material Purchasing Plan implements the Program of Studies learning goals and academic expectations for the 2009 – 2010 adoption cycle.

Statement of Accountability

Foster Heights Elementary School and Old Kentucky Home Intermediate School are reuniting with a new school number beginning on July 1, 2009. The current chairs of the OKHIS & FHES Textbook Committees met and reviewed the materials in order to certify that this Textbook/Instructional Material Purchasing Plan implements the KERA learning goals and the academic expectations for the 2009-2015 adoption cycle.

Because we do not have an official SBDM council to make decisions for the 2009-2010 school year, we as joint chairs and the principal, with approval from the superintendent, are recommending this adoption to the Nelson County School Board in order to receive materials and training.
