THANK YOU!

The students who participate in the Early College Program wish to thank Superintendent Borchers & The Ludlow Board of Education for their support. They are truly appreciative of their Early College experience.

Now that I've have jumped into the world of college, I am more confident about my future. I've learned that I am not only capable of attending college, but I can truly excel at it!

This Early College experience improved my time management and organizational skills. I learned new ways to study and how to use my time more effectively.

I am so grateful for the opportunity and privilege of taking these college classes. It has given me a head start in life! College is going to be hard for my family to afford, but you have made that a little easier.

I am not a good test-taker and wasn't able to meet my ACT benchmarks. But by taking the dual credit courses through Gateway at Ludlow, I can start right into college classes this fall. Taking these helped me out a lot and made me feel more confident about doing well in college. Thank you for offering these classes this year!

Without this program, I wouldn't be prepared for my years after high school. Before Gateway, I was stressing about college, and wondering if it was even a fit for me, but now I know I am fully capable of the college life. With this program, I can now say I'm prepared for my college career and can guarantee that I will achieve.

I just had to make my fall schedule at my college orientation. Because of all the credits I earned at Gateway, I am really far ahead of the other freshmen! I don't have to take so many of the regular general electives because I've already finished them! I'm so happy because it means I will finish my degree earlier!
