

## **LOGAN COUNTY CTC REGIONAL CAREER ACADEMY INTER-LOCAL COOPERATION AGREEMENT**

WHEREAS, the parties to this Agreement deem it mutually advantageous to provide services, programs, and facilities to the residents of their respective school districts including, but not limited to those provided through a regional career academy; and

WHEREAS, a Regional Career Academy is defined as a hybrid, all-day learning environment established in partnership with multiple school districts, a locally operated career and technical center, postsecondary partners and business and industry partners where students participate in a combination of academic and career and technical education classes in order to expand career pathway studies available to students in the partnering school districts; and

WHEREAS, these services can best be provided through a joint effort pursuant to an inter-local cooperative agreement;

NOW THEREFORE THE PARTIES AGREE AS FOLLOWS:

1. The parties to this Agreement are the Logan County Schools, Russellville Independent Schools and Todd County Schools (hereinafter "the Schools").
2. This agreement is entered into by the parties pursuant to the provisions of KRS 65.210 through KRS 65.300 and the parties, pursuant to this Agreement, may jointly exercise any or all of the powers and privileges conferred upon inter-local cooperative agreement participants by these statutes.
3. This agreement shall be administered by a Board comprised of two members from each sending school district (superintendent or superintendent designee and an administrator from each high school), the Logan County Career and Technical Center principal, career development specialist and one teacher; two representatives from the Southcentral Community and Technical College, and two representatives from our 4-year postsecondary partner; Campbellsville University. Business and industry partners (one representative from each high demand area) will be invited to meetings that discuss expanding partnerships, program updates and employment data. The Advisory Board, will be comprised of 50% business and industry partners, will meet at least four times per year, and possibly have a summer retreat/work session prior to the beginning of each school year.
4. The Board shall be responsible for the general control and management of the Academy and such other programs or activities as it may from time to time undertake, all to be consistent with the provisions of the Kentucky Revised Statutes, the regulations of the State Board of Education and the mission of the Academy. Notwithstanding any provision in this Agreement, all personnel working in the

Logan CTC Regional Academy location shall remain under the direction and control of his or her employing agency or school district. The Academy is an all-day learning environment established with multiple schools districts, the locally operated career and technical center, postsecondary partners, and business and industry partners designed to graduate students with the academic and employability skills needed to have a competitive advantage in the global economy and for regional high-demand, high-wage occupations.

5. The Logan CTC Regional Career Academy will ensure equitable distribution of students based on the historical enrollment data of the sending schools. Using KDE policy 09.12, the sending schools will submit their enrollment numbers to the superintendents. The building administration will review the numbers and allocate slots to each school, as well as, ensuring equitable distribution between all programs. When districts fail to fill their allotted slots, those seats will be reallocated to the other districts based on the ratio agreed upon by the three school districts. The initial date for each school district to have their allotted slots filled shall be the Friday prior to Logan County's first full day of student attendance for the school year. By this day, each district shall have entered student enrollment data into infinite campus so the principal at the CTC will have access to viewing enrollment numbers for each class. By the following Friday or the first Friday after all other districts have started school; whichever comes first, notification will be sent to each district giving them the opportunity to put in their requests for any open slots. On the following Monday, school districts will be notified of their final enrollment for slots in all classes. See attachment for enrollment details.
6. The Board from time to time may enter contracts with other persons or entities for assistance in managing and operating the Academy and such other programs as it may from time to time undertake.
7. We reserve the right to add or invite any other Kentucky public school districts to become parties to this Agreement upon unanimous approval by the Board of an amendment to this Agreement accepting the new district(s) as a party to this Agreement.
8. The Logan County School District will provide funding for a special education teacher for the academy. The other school districts will reimburse Logan County according to the number of students enrolled with an IEP from each district. Each district will share the cost of an EMT instructor based on student enrollment and the ratio agreed upon by the three districts.

IN WITNESS THEREOF, the parties by their authorized representatives, have executed this Agreement on the dates set forth below.
