Graduation Requirements**PERFORMANCE-BASED CREDITS**

In addition to Carnegie units, students may earn credit toward high school graduation through the District's standards-based, performance-based credit system that complies with requirements of Kentucky Administrative Regulation. Procedures for the developing and amending the system shall address the following:

1. Conditions under which high school credit will be granted under the system that allow students to demonstrate proficiency and earn credit for learning acquired outside the normal classroom setting, outside of school, or in prior learning;

Performance-based credit may be earned while the student is still "in school," but the instructional setting will look different from a traditional "seat time" environment.

2. Performance descriptors and their linkages to State content standards and academic standards expectations;

At the high school level, performance descriptors and evaluation procedures shall be established to determine if the content and performance standards have been met.

3. Assessments and the extent to which state-mandated assessments will be used;
4. An objective grading and reporting process; and
5. Criteria to promote and support school and community learning experiences, such as internships and cooperative learning, in support of a student's ILP individual learning plan. Such experiences shall be supervised by qualified instructors and aligned with State and District content and performance standards.

ADDITIONAL REQUIREMENTS

~~Students that do not meet the college readiness benchmarks for English and language arts and/or mathematics as juniors shall take a career/college readiness transition course or intervention before exiting high school.~~

High school handbooks approved annually by the Board shall include complete details concerning specific graduation requirements.

HIGH SCHOOL CREDITS EARNED IN MIDDLE SCHOOL

Unless otherwise recommended by the Principal and approved by the Superintendent, no less than full course credit may count toward graduation requirements. Students in the eighth grade may receive high school credit for courses completed at the middle school level provided that the course was taught by a high school certified teacher using an approved high school curriculum and high school textbook or other ancillary material. Students may be allowed to enroll in the next sequential level class with the recommendation of the middle school teacher and the concurrence of the high school teacher. If the recommendation is not unanimous, the teachers and counselors will confer with the student and parent and reach a decision. The parent and student have the final placement decision. The school may require the parent to confirm the decision in writing.

Graduation Requirements**HIGH SCHOOL CREDITS EARNED IN MIDDLE SCHOOL (CONTINUED)**

In keeping with statutory requirements, the District shall accept for credit toward graduation and completion of high school course requirements an advanced placement or a high school equivalent course taken by a student in grades 5, 6, 7, or 8 if that student attains performance levels expected of high school students in the District as determined by achieving a score of "3" or higher on a College Board Advanced Placement examination or a grade of "B" or better in a high school equivalent.²

OTHER PROVISIONS

The Board may grant different diplomas to those students who complete credits above the minimum number as established by the Kentucky Board of Education. In addition, the Board may award a diploma to a student posthumously indicating graduation with the class with which the student was expected to graduate.

The Board, Superintendent, Principal, or teacher may award special recognition to students.

Consistent with the District's graduation practices for all students, an alternative high school diploma shall be awarded to students with disabilities in compliance with applicable legal requirements. In addition, former students may submit to the Superintendent a request that the District provide them with an alternative high school diploma to replace the certificate of attainment they received at time of graduation from the District.³

A student who is at least seventeen (17) years of age and who is a state agency child, as defined in KRS 158.135, shall be eligible to seek attainment of a High School Equivalency Diploma.

The District shall report individual student data regarding the completion of each graduation qualifier and each graduation prerequisite to the Kentucky Department of Education.

The Board may substitute an integrated, applied, interdisciplinary, occupational, technical, or higher-level course for a required course if the alternative course provides rigorous content.

A Letter of Intent to Apply shall be entered into the student information system by October 1 of the year the student declares intent to graduate early.⁴

Graduation Requirements**EARLY GRADUATION CERTIFICATE (CONTINUED)**

Students working toward receipt of an Early Graduation Certificate shall be supported by development and monitoring of an ILP individual learning plan to support their efforts.

To graduate early and earn an Early Graduation Certificate, a student shall:

1. Score proficient or higher on the state-required assessments; and
2. Meet the college readiness exam benchmarks established 13 KAR 2:020 for placement in credit-bearing courses without the need for remediation.

A student who has indicated an intent to graduate early may participate in the student's state administration of the college readiness exam prior to the junior year, if needed. Students who meet all applicable legal requirements shall be awarded a diploma and an Early Graduation Certificate.

GUIDING PRINCIPLES OF COMPREHENSIVE THREAT ASSESSMENT PLANNING

The District School Safety Coordinator, members of threat assessment teams, and other appropriate District administrators and staff, shall give appropriate consideration to the following non-exhaustive list of general principles as threat assessment teams are established and as they plan for and conduct their work;

1. A threat assessment process best functions as one component of overall school safety, in conjunction with physical school security and emergency management.
2. Students may engage in a continuum of concerning behaviors, the vast majority of which will be non-threatening and non-violent, but may still call for some type of response.
3. Students should feel empowered to communicate their own concerns to appropriate school staff without fear of reprisal. Incoming reports regarding concerning behavior or statements presenting a threat to school safety and school security should be given due consideration and assessed.
4. The goal of a threat assessment process is to identify, assess, and respond to potential threats to school safety and school security. The process begins with establishing a comprehensive plan for schools to:
 - a. Identify students or situations of concern;
 - b. Gather additional relevant information in a lawful manner;
 - c. Assess the student or situation risk, in context based on the totality of the information available; and
 - d. Identify and implement or recommend appropriate response strategies to address the concern.

INTERACTION OF TEAM ACTIVITIES WITH SCHOOL DISCIPLINARY ACTION AND/OR LAW ENFORCEMENT
