TEACHING and LEADING with FOCUS

In this session, teachers and leaders will learn precisely where schools should focus their precious time and resources to ensure that all students are prepared for the demands of college, careers and citizenship. They will learn about the three most essential elements of good schooling, and how to implement them on a clear, straightforward model. The three elements are:

- Coherent curriculum
- Authentic literacy
- Soundly-structured lessons

Despite their unrivalled power for improving performance in any school, these elements continue to be misunderstood--and grossly under-implemented. For this reason, they should be our first and highest priority. Participants will leave this session knowing both *what* to do and *how* to do it, in ways that will yield immediate and significant results.
