

Governance

- ❑ Leave administration to administrators (principals, central office staff, superintendent).
- ❑ Think macro – not micro.
- ❑ Concentrate on policy – or changes that may be needed to policy.
- ❑ Focus on “what” not “how”

Common Mistakes

- *Trying to be an administrator rather than a board member*
- *Concentrating on the small stuff to the exclusion of the big picture*
- *Worrying about the processes that will make the policy work*
