

Legislative Contact Representative

KSBA is challenging each school district to nominate a legislative contact to help us with our advocacy efforts. Please complete the information below for your school district.

Legislative Contact Role

Local legislative contacts will serve as the primary contact for organizing and managing local grassroots activities. These activities would include organizing legislative forums, in-district meetings with legislators, sharing information with other school leaders in your community and other activities. It is important that legislative contacts have the ability to utilize electronic communications. It is our intention create a year round legislative program which will help improve our communications with state and federal elected officials
