Board agenda item:

Seeking board approval for the surplussing of five (5) school buses owned by DBE. If approved, buses to be surplussed will be following numbers:

#99, #099, #101, #104, and #204.

This will leave reliable spares for both regular and special education routes including #201, #107, #009, #211, and #013. While #201 is an older bus than #104 and #204, it is in better repair. The spares we have will be sufficient when the need arises for replacement for repair and/or when additional routes are added.
