

October Live RED Report

District News

Live RED Staff Award

Congratulations to Ms. Rebecca Fortner for being the Live RED recipient for the month of October. Her nomination reads: Ms. Rebecca Fortner is one of the most deserving people I know. It's hard to truly put into words what her job entails. Not only does she work with our special needs students, teaching them academically, she teaches them how to be successful in their daily lives. She puts in long hours to make sure they have what they need to succeed. One example of how she goes the extra mile is, each morning she brushes and styles a little girl's hair so that when she goes into the classroom with her peers she feels confident among the other students. Little things like this that most people wouldn't even think of or notice, is what makes her so special. Rebecca Fortner is most definitely striving to Reach Excellence Daily.

Family First

Through the striving readers grant, the Family First staff will have the opportunity to travel to Louisville, to attend the National Center for Families Learning Conference in November. The state FRYSC has set forth new standards of quality for family strengthening and support. Now that the reconfiguration has occurred, resulting in an intense focus on the elementary schools, we are highly anticipating learning new strategies to engage families. These strategies will help us strive for quality as we meet and even exceed many of the new standards.

Cardinal Connection

September has been a great month at Cardinal Connection with much learning and reflection. We were able to attend the Strengthening Families Community Symposium where we received some new ideas and are working to incorporate this knowledge into more of what we do. We are changing up the agenda and plan for Parent Cafe's for higher attendance. We had the privilege of hosting the Regional FRYSC meeting in Grand Rivers and were trained on ways to reflect and self-assess more efficiently. At interagency meeting, we heard about a speaker from Baptist Health, Dr. Pat Withrow, who spoke at the high school with information about substance abuse and the adolescent brain. Looking forward to an awesome October with the BMX speakers, Red Ribbon Week, Big Smiles and much more!

North Livingston

Mrs. Owens' 3rd grade has enjoyed participating in the Cloverbuds with 4H. They have learned about calcium and how it works in your body and also different sources of calcium. They have also been learning about honeybees and how they live and work.

North Livingston was rated as a 3 star school. We are celebrating accomplishments and determining areas of improvement as we develop our School Improvement Plan.
