Boyd County	Option B	Option B	9	Pete Fraley	Tommy Holbrook	Pete Fraley	
Boyle County	Option A	Option A	6	Kyle Wynn	Mark Wade	Kyle Wynn	This is supposed to be the last year for the current region alignment, will there be discussion on a new realignment, when will that occur? Is there a possibility of moving to a single A and AA state tournament, based on school size. Have regionals like they currently are and then divide out the swimmers/divers that qualify for the different state tournaments. Go from 40 swimmers/divers total to 48 (with 24 in each meet). If State diving is all done on Thursday, will there still be swim warm ups that Thursday night?
Brown	NO RESPONSE	NO RESPONSE	5	NO RESPONSE	Angela Parsons	Justin Leonard	NO RESPONSE
Bryan Station	Option A	Option B	8	Shelli Warburton	Ryan King	Shelli Warburton	Issue 1: One of our divers has been negatively affected multiple years by the the adverse judging in other regions so we are greatly in favor of this change! Issue 2: We are not in favor of moving all of the state diving to one day.

Great Crossing	Option A	Option B	8	Austin Haywood	Joy Lusby	Austin Haywood	Issue 1- Most of the regional dive meets are already combined, so it should be done across the board with a consistent judges panel. This change helps to make sure the deserving athletes are the ones who move on to the state level. Issue 2- It is not a good option to have that many divers compete until late at night. It is too hard on them and would not give them the best opportunity to perform at their top level.

Lexington Catholic	Option A	Option B	8	David Gadberry	Mathew George	David Gadberry	Comments: Issue 1: Regional dive meets should be combined with a more consistent judges panel since these are the meets where divers qualify to the state championships. This change would eliminate a lot of bias and score inflating at the regional level as well as help to make sure the deserving athletes are the ones who move on to the state level. Issue 2: Our girls have been competing on Thursday until around 10pm which is already too late and that is not even doing all the rounds in one day. This is a safety issue, and we also want our divers to compete to the best of their ability to get the best outcome possible; we have divers who are also competing for all-american so they need to be competing at their highest level.

Monroe County	Option A	Option A	2	John Petett	Melissa Emberton	John Petett	
Montgomery County	Option A	Option B	8	Kevin Letcher	Rocky Franz	Kevin Letcher	Issue 1: We need the regional dive meets being combined with a more consistent judges panel since these are the meets where divers qualify to the state championships. Being held before the regional swim meets also resolves scheduling issues that exist between the swim and dive meets for regionals. Issue 2: In the current format with prelims and semis on Thursday, the gender who competes second is diving until 9:30pm or later which is not good. We want our divers to compete to the best of their ability to get the best outcome possible. Most divers would still be way too exhausted after a long competition, driving home and having to be up early the next morning to go to school.
