Facilities, Transportation, and Safe Schools

Transportation:

- Our special education bus went down last week. We were fortunate that once again Campbell County was able to assist us with a special education bus. Greatly appreciate their quick response in assisting us. Our bus will be back this week.
- We also had two other buses in need of repairs as well. They both require work from an outside shop.
- Will be looking into the cost of passing arm cameras as well as improving those we currently have in the buses.

Facilities:

- I have attached my facility project recommendations as well as a priority listing of recommendations for the remainder of the year and this summer.
- We continue to work on a variety of issues that are normal for this time of year.
- Overall, facilities are up and running without major issues.

Safe Schools

- Will be meeting with our Safe School Compliance Officer Fred Scroggins in the upcoming weeks to walkthrough our buildings prior to our official visit.
- Will be meeting with School Safety Committees in upcoming weeks.

Newport Regional School

- New students at NRS from Jefferson County are making adjustments to the new facility. Mr. Piccirillo has been doing a good job with them and our staff at NRS.
