How Should You Use The School Report Card?

Kentucky's accountability system places students at its heart by ensuring they are well rounded, transition-ready, and prepared with the knowledge and skills needed to be successful at the next level. Use this information as a conversation starter in your community on how to improve academic performance on a local level.

How is the 5-Star Accountability Rating Calculated?

Kentucky's accountability system provides an overall star rating for each school ranging from 1 (lowest) to 5 (highest). Calculations for how many stars a school or district receives are made based on the weights of the indicators shown above.

*Percentages listed are for schools with a standard configuration of grades 3-5 and 6-8 and rounded to the nearest hundredth.

ATTENDANCE RATE

ECONOMICALLY DISADVANTAGED

Novice Level

Reading

18.4%  below prior year rate **20.6%**

Mathematics

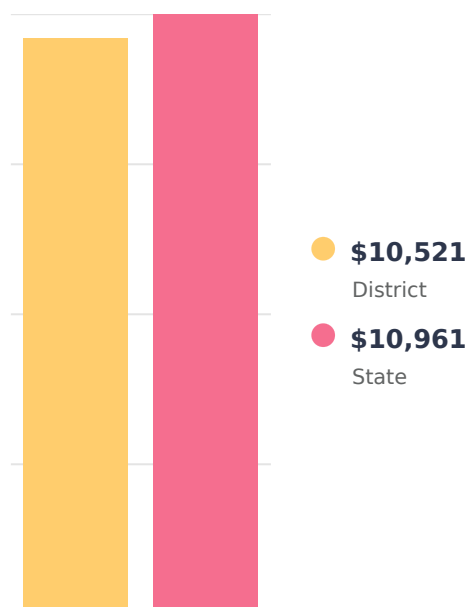

11.0%  below prior year rate **13.7%**

Why is this important?

Students performing at the novice level have minimal understanding of grade level content and are in a state of “academic emergency.” The novice rate represents students performing at the lowest level in your school. The goal is to reduce the percentage of novice performance each year.

Total Spending Per Student

State and local funds: Total spending divided by student membership. Data reflects the 2017-2018 school year.

Financial data is complex and varies from district to district. Conclusions should not be drawn solely from this data. Please engage local district leaders to better understand local district revenue and spending.
