#### PURPOSE AND GOAL: SAFER SCHOOLS AND SAFER STUDENTS

The District is responsible for providing a safe environment for students, staff, and visitors. A safe school environment is a fundamental requirement for student success. Central to that responsibility is the implementation of a fair and equitable system of behavior supports and interventions for all students. School administrators are expected to develop and implement a plan with teachers to ensure that expected behaviors are intentionally taught, modeled, learned, and reviewed to ensure student understanding and success. The District's commitment to achieving racial equity through awareness, action, and accountability must be embedded in all school and District practices, to ensure that all students are treated fairly and without discrimination.

~~Critical~~ Also critical to school safety and student success is the importance of building and sustaining positive adult-to-student relationships that: celebrate and recognize positive student behavior; incorporate cultural competence; use age- and developmentally-appropriate strategies; and are based on respect and two-way communication.

~~A key desired outcome of implementation of this system of strategies and the development of positive relationships is the reduction of~~ A central goal of implementing this system of strategies to develop positive relationships in schools is reducing the number of students who become engaged with the juvenile justice and criminal justice systems.

The purpose of the program is not to enforce or administer matters of school discipline and student conduct, which are the responsibility of other District or school personnel. The purpose of the SSO SRO-program is to: promote and foster a safe environment in schools, at school-sponsored events, and on school transportation; provide a law enforcement presence on school property and at school-sponsored events; enhance educational programs relating to safety and positive behaviors; build positive relationships with students to support academic success and personal growth; and

provide a liaison to community and law enforcement agencies; and contribute to the District focus on building trusting relationships in school communities through approaches such as restorative practices, positive behavior interventions and supports, social-emotional learning, and trauma-informed practice.

The goal of SSO program is to promote safer schools and safer students by employing law enforcement officers with high levels of specialized school-specific and student-focused training to work proactively with others in the school community to create a more safe and supportive learning environment for all students. SSOs shall work as a team with administrators and teachers to develop strategies to protect and support all children so they can reach their fullest potential.

The SSO program is one component of a broader effort within schools and the District central office to ensure a safe learning environment for students, staff and community. Schools are safer when administrators, teachers, and staff work intentionally to:

- Actively engage students in authentic learning that matters to their sense of self and personal development.
- Build a culture and climate that foster and sustain attitudes, beliefs, values, and practices that promote success for all students.
- Make racial equity foundational to all school systems and practices, ~~including regarding access, resources, staffing, discipline, and curriculum for all students.~~
- Develop and implement a comprehensive system of supports to address student mental health, social, and emotional needs, and the roots of disruptive behavior.
- Collaborate closely with appropriately trained and equipped law enforcement professionals – SSOs – to promote and foster a safe environment for students, faculty, staff, and the school community.

~~The purpose of the program is not to enforce or administer matters of school discipline and student conduct which are the responsibility of other District or school personnel.~~
