

To whom it may concern,

This fundraiser for the Leukemia & Lymphoma Society, Pennies for Patients, is made between Kelly Elementary and LLS – Pennies For Patients.

100 % of the money received during the fundraising event by Kelly Elementary will go to LLS. These funds are used in 2 primary ways. One – investing in clinical research trials for new and improved treatments for blood cancers. Secondly – investing in local patients through our Patient Services program to offer financial assistance to local families to help curb the costs of treatments, co-pays, and travel for treatment. Last year alone, our local Tri-State Chapter investing \$1.35 million dollars in local research grants and \$956,971 invested towards 434 local families for financial assistance. All of this money invested is because of wonderful schools like yours!
