DIRECTOR

SUPERINTENDENT

Geotab Pilot Program

Thank you for choosing Enterprise Fleet Management (EFM) and telematics provided by Geotab. The below outlines the details of the 60-day pilot program:

- Equipment cost is FREE during the 60-day pilot program. At the end of the pilot period the equipment must be returned unless you decide to sign up for the Geotab program.
 - At the end of the 60 day pilot period, you will have a 30 day grace period to return the equipment before you are billed for the equipment. The total number of days of possession must not exceed 90 days from the shipment date to avoid being charged the device fee of \$54.00 per device.
 - If you decide to move forward with the Geotab program, you will keep the device(s) and will be billed the monthly plan cost plus the \$54.00 device fee for each device.
- There is no monthly cost for the network during the 60-day pilot period or the 30 day return period.
- Geotab will ship the device(s) and provide the necessary training and set up requirements for the pilot program
- At the conclusion of the pilot if you continue with the Geotab program, the Enterprise Telematics Agreement and a carrier credit application and/or carrier contract must be signed in order to retain the current device(s) and/or obtain additional Geotab devices for your fleet of vehicles.

By signing this document you agree to the above program, and that EFM is authorized to bill you for any pilot devices not returned within 30 calendar days after the end of the trial period.
