The attached spreadsheet is an average daily attendance breakdown by grade level. The left side compares each grade level to the 3 year average for that grade level. The right side compares each grade level to where they were this time last year (for example, this year's 2nd graders compared to last year's 1st graders)

Celebrations

1st grade is up .55% compared to the 3 year average for 1st graders

10th grade is up .52% compared to the 3 year average for 10th graders

1st grade is up 1.2% compared to where they were last year as kindergartners

2nd grade is up .3% compared to where they were last year as 1st graders

3rd grade is up .18% compared to where they were last year as 2nd graders

9th grade is up .56% compared to where they were last year as 8th graders
