To whom it may concern:

I would like to request that the Allen County Board continue to fund the following classified positions from section 7 funds:

- Full-time substitute. This position is important to ACIC because of the ongoing shortage of substitutes in the district and is used each day to support student learning.
- Position that is ½ time library assistant and ½ alternative learning center assistant. This position fills two voids. With nearly 700 students, the volume of books going in and out of the library is very high. Our library media teacher has a full class schedule and limited planning, therefore, the aide is needed to assist in the effective operation of the library. Also, this position serves as the alternative learning center (ALC) aide as needed. We use ALC as a consequence when student behavior is beyond a classroom consequence but not worthy of suspension.
- Full time computer technology position. This position allows our students to have computer lab weekly. There they are exposed to research, internet safety, digital presentations, basic coding and consumerism.

Thank you for your consideration
Shawn Holland, Principal
Allen County Intermediate Center
