- Our 21st Century Summer Learning Program has taken on a new look this summer. Unlike years past filled with on-campus learning and field trip adventures, we have created an at-home learning camp. Each of the four weeks has been devoted to a unique theme with six LES teachers and 21st Century Coordinator, Kelly Krentz making home visits, sending videos, delivery bags, etc. in order to stay in touch with our students and their families to help them learn and grow during these summer months. We want to continue our important 21st Century Grant work, and are excited that we were able to provide this opportunity.
- LES Administration and math teachers along with Mr. Wolf and Mr. Brewer have been busy researching math programs for our students. We have reviewed five different engaging math programs so far, and plan to make a final decision for our students in the weeks ahead.
- Since we weren't able to thank and celebrate our amazing LES volunteers (One-to-One Readers, PTC volunteers, devoted school volunteers) this spring, Mrs. Dragan mailed each volunteer a letter with a beautiful key chain on behalf of the entire LES staff to thank each volunteer for their service to our students and staff.
