President-Elect Election

The Board of Control annually elects from its membership, a President-elect to serve the following year, and then transition to the President position in the second year following.

Board members were reminded that the officers for the following year are elected at the 5th meeting of the year. (February 2020)

As adopted, the procedure for the election is as follows:

A. ELIGIBILITY AND NOMINATIONS

To be eligible to seek the position of President-elect, the individual shall be in the second year (rising to the third year) of his/her first term, or in his/her second term.

Nominations shall be made in open session with a motion from a sitting member of the Board of Control. No second shall be required for the nomination.

B. BALLOTING

Balloting shall be done in open session with a public vote.

1. ELECTIONS WITH ONE CANDIDATE

In an election with one candidate, the candidate shall receive at least ten (10) votes to be elected or may be elected by approval of a properly made motion to accept the candidate by acclamation.

2. ELECTIONS WITH TWO CANDIDATES

In an election with two candidates, a candidate shall receive at least ten (10) votes to be elected.

A ballot that is tied or in which no candidate receives ten (10) votes shall be repeated a maximum of two times.

If three ballots are held with no member receiving ten (10) votes, the election shall be decided by a coin toss with the candidate alphabetically listed first having "heads" on the coin.

3. ELECTIONS WITH MORE THAN TWO CANDIDATES

In an election with more than two candidates, a candidate shall receive at least ten (10) votes to be elected.

If no candidate receives ten (10) votes and one candidate has a greater number of votes than the other two (2) candidates, and the other candidates not having the greater number of votes are tied, a candidate shall be eliminated by coin toss with the candidate alphabetically listed first having "heads" on the coin. The election shall then proceed according to either section (2) or (3) above based on the number of remaining candidates.

If no candidates receive ten (10) votes and one candidate has a greater number of votes than the other two (2) candidates, and the other candidates not having the greater number of votes are not tied, the candidate shall be eliminated with the fewest votes. The election shall then proceed according to either section (2) or (3) above based on the number of remaining candidates.

Field Hockey Items

Field Hockey Discussion and Sanctioning

Commissioner Tackett and Staff reviewed that at its April, 2014 meeting, the Board approved the sanctioning of Field Hockey to begin with a championship in 2014-2015. It was determined at that time to be financially viable and existing Field Hockey schools desired state sanctioning.

At the November, 2016 meeting, the Board heard discussion as part of its regular options. Following discussion, it was recommended that Field Hockey continue to be a championship sport through the championship in 2019. At that point, the Board would review, and provided there was growth in terms of schools and regions involved, the sport would be considered for continuation. In addition, the alignment and state format would be reviewed and potential changes brought to the Board in January.

That action compelled the Board to review the sanctioning of Field Hockey. To date, there has not been growth in Field Hockey participation in terms of the number of schools.

It was noted that regardless of participation numbers, two important factors exist today that existed when Field Hockey was first sanctioned as KHSAA Championship. 1) There is no negative financial impact, in fact, that championship pays for itself. 2) This was not a new sport in 2014 and in actuality, the sport has been played in KHSAA member schools for more than fifty years. As such, it is certainly a "grandfathered activity" in comparison with newer events.

Motion Passed: The Field Hockey continues as a KHSAA championship sport, with a visible commitment from the Association to attempt to promote and monitor growth, and a regular report be issued to the Board, as well as an amendment to the sanctioning policy to be drafted to allow the Board to make an exception to its required number of teams when considering grandfathering a long-standing existent sport or sport-activity passed with a motion by Debbie Beichler and a second by Greg Howard. NOCSAE Baseball Use

In 2017, the NFHS adopted a playing rule dealing with safety and ball manufacturing that beginning Jan. 1, 2020, all baseballs shall meet the NOCSAE (National Operating Committee on Standards for Athletic Equipment) standard and include the certified mark on all balls used for high school competition. This information has been included in annual rules clinics since, notifying coaches of the pending requirement.

Questions have been asked by umpires and coaches of what to do if there were no such balls provided at game site, should the game be played? Rule 1-3-1 in the NFHS Rules Book details the requirement and unless otherwise mutually agreed upon, the home team has this responsibility to provide the balls.

It is the feeling of the Commissioner and Associate Commissioner Cope that because this is a safety driven concern, it is without question necessary for total compliance.

Motion Passed: Games where umpires arrive on-site and no NOCSAE approved baseballs are available to begin a contest, the contest shall not be played and deemed a forfeit by the home team and that forfeited games are not replaceable toward a team's 36 game limit passed with a motion by Darrell Billings and a second by Marlon Miller.
