

MASTER DEVELOPMENT AGREEMENT

THIS MASTER DEVELOPMENT AGREEMENT (this “AGREEMENT”) dated the ____ day of _____, 2020 (the “Effective Date”) by and among the CITY OF OWENSBORO, KENTUCKY, a municipal corporation of the Home Rule Class, 101 East Fourth Street, P.O. Box 10003, Owensboro, Kentucky 42302-9003, (hereafter referred to as “City”), and the DEPARTMENT OF FINANCE & SUPPORT SERVICES OF THE CITY OF OWENSBORO (the “Agency”), and the OWENSBORO REGIONAL WATER RESOURCE AGENCY, 1722 Pleasant Valley Rd., Owensboro, Kentucky 42303, (hereafter referred to as “RWRA”), and G W DEVELOPMENT, INC., a Kentucky corporation, 2960 Fairview Drive, Owensboro, Kentucky 42303 (hereafter referred to as “Developer”, and collectively the City, Agency, RWRA and Developer shall be referred to as the “Parties”);

RECITALS

Whereas, the City and the Developer executed a Memorandum of Agreement dated April 8, 2015 and amended June 12, 2017 (collectively the “Annexation Agreement”), a copy of which is attached as Exhibit “E”, which related to the Gateway Commons Development Project (the “Project”) being undertaken by the Developer, and, which is mixed-use project consisting of hotels, retail, restaurant, office, residential, and similar appropriate uses, together with related public infrastructure, and more specifically described in Exhibit “B”, and wherein the Developer agreed to the voluntary annexation of an approximately 208 acre parcel (the “Project Site”) into the City; and

Whereas, the Annexation Agreement pledged to the Developer certain City tax revenues generated by the Project over a 20-year period more particularly set forth in the Annexation Agreement; and

Whereas, subsequent to the date of the Annexation Agreement, and pursuant to the Act, as hereinafter defined, the City by Ordinances No. 16-2015 and 15-2018 (the “Development Area Ordinances”), adopted on June 16, 2015 and September 18, 2018,` respectively, established the Gateway Commons Development Area (the “Development Area”) and pledged certain City Incremental Revenues [hereinafter defined], through the execution of a local participation agreement as provided in the Act, dated June 16, 2015 (the “Local Participation Agreement”), which is being amended concurrently herewith as an Amended and Restated Local Participation Agreement [hereinafter defined], which is attached as Exhibit “H”, to pay for or reimburse Public Infrastructure Costs within the Development Area as more specifically identified within the Local Participation Agreement; and

Whereas, in the Development Area Ordinance, City established the Agency as its agency and instrumentality and constituted authority for the purpose of performing functions related to the oversight, administration, and implementation of the Development Area Ordinance and Local Participation Agreement on behalf of City; and

Whereas, following the execution of the Local Participation Agreement, the City and Agency applied to the Kentucky Economic Development Cabinet, through an application to Kentucky Economic Development Finance Authority (“KEDFA”) seeking a pledge of State Incremental Revenues to reimburse approved public infrastructure costs related to the Project; and

Whereas, KEDFA approved though the execution of a tax incentive agreement (the “Tax Incentive Agreement with the Agency, attached as Exhibit “F”, a pledge of State Incremental

Revenues to reimburse Approved Public Infrastructure Costs, as defined in the Tax Incentive Agreement, over a 20-year period in an amount not to exceed twenty million five hundred seventy-one thousand dollars (\$20,571,000.00); and

Whereas, the City and the Developer seek to supersede the Annexation Agreement with this Agreement to account for changes in circumstances relating to the Project and the incentives available to the Project, subsequent to the Annexation Agreement, including, but not limited, to the pledge of State Incremental Revenues as set forth in the Tax Incentive Agreement; and

Whereas, in addition to the costs expended by the Developer related to the Project, the RWRA has, and will in the future, expend significant capital investment for infrastructure improvements within the Development Area and Project, the reimbursement of such capital investment to the RWRA, being one reason for the application to KEDFA for a pledge of State Incremental Revenues, and

Whereas, concurrently with the approval of this Agreement the City is approving an Amended and Restated Local Participation Agreement; and

Whereas, City recognizes that the redevelopment of the Development Area and the construction of Project, and the resulting economic impact from the Project to the community, will not occur without a public-private partnership and financial assistance provided to the Project by City and the Commonwealth of Kentucky (the “State”); and

Whereas, the Parties desire to set forth their mutual agreements, understandings and obligations, in order to facilitate the design, financing, development and construction of the Development Area and the Project, including deciding the priority and process for distributing State Incremental Revenues and Local Revenues [as hereinafter defined] to the Parties.

B. The Project shall be constructed over a several year period by the Developer. The Developer shall provide to the City an estimated schedule for the completion of the Project, which the Developer shall annually update, by June 30th of each year, along with an updated report of Capital Investment expended by the Developer within the Development Area related to the Project.

SECTION VII.
PRIORITY ON THE USE OF INCREMENTAL REVENUES

3. Thirteen percent (13%) shall be paid to the City to reimburse Public Infrastructure Costs paid by the City and the cost of Redevelopment Assistance provided by the City to the Development Area.

4. That notwithstanding the provisions of sub-paragraphs 1, 2, and 3 above of SECTION VII(A) of this Agreement, in the event the State terminates the Tax Incentive Agreement for lack of State funds due to a bankruptcy filed by the State or a designated emergency, from the date of the termination of the Tax Incentive Agreement, the Agency, after first deducting the Administrative Fee, shall paid to the Developer one hundred percent (100%) of the Local Revenues. This provision shall not apply to any termination of the Tax Incentive Agreement or a reduction of the State Capped Amount, caused by a default by the Developer, or a failure of the Developer to construct the Project in accordance with Tax Incentive Agreement.

B. Any payments due the Developer or RWRA under SECTION VII(A) of this Agreement from State Incremental Revenues shall be paid annually by the Agency within thirty (30) days after the State transmits the State Incremental Revenues to the Agency; and the Agency shall distribute Local Revenues shall be paid quarterly within thirty (30) days after the Local Revenues are deposited by the Agency into the Special Fund for the receipt of Local Revenues. Payments to the Developer shall continue annually in case of the State Incremental Revenues, and quarterly in the case of the Local Revenues, until such time as the combined payments to the Developer from State Incremental Revenues and Local Revenues equals the lesser of

C. Any State Incremental Revenues and City Incremental Revenues received by the Agency for calendar years 2018 and 2019 (the “2018 and 2019 Incremental Revenues”), shall be paid to the City to pay for the Administrative Fee, Public Infrastructure Costs or Redevelopment Assistance as determined by the City, except that \$500,000 of the 2018 and 2019 Incremental Revenues shall be used by the City to pay for street improvements and related costs for the extension of Fairview Drive.

D. After the obligations set forth in this Agreement to the RWRA and the Developer have been fully satisfied, the City may, at its option, terminate the Development Area.

E. Notwithstanding anything to the contrary, nothing in this Agreement shall be interpreted to commit City and/or the Agency to pay for or reimburse any Project Costs, except from the State Incremental Revenues, which recovery amount is subject to the terms of the Tax Incentive Agreement, as it may be amended, and Local Revenues that may be generated within the Development Area and due to the Agency as provided in the Amended and Restated Local Participation Agreement, the Tax Incentive Agreement, and this Agreement.

SECTION VIII. DEFAULT

If any Party or any Parties (in either case, the “Defaulting Party”) materially breaches or defaults on any of its obligations under this Agreement, the other Parties may give notice that remedial action must be taken by the Defaulting Party within thirty (30) days of the notice. The Defaulting Party shall correct such breach or default within thirty (30) days after such notice; provided, however, if (i) the default is one which cannot with due diligence be remedied by the Defaulting Party within thirty (30) days, and (ii) the Defaulting Party proceeds as promptly as reasonably possible after such notice and with all due diligence to remedy such default, the period after such notice within which to remedy such default shall be extended for such period as may be necessary to remedy the same with all due diligence. If such action is not taken, the non-defaulting parties may, in addition to all other remedies available at law or in equity (including but not limited to specific performance and/or recovery of damages, including reasonable attorneys’ fees and other costs and expenses), terminate this Agreement, or the portion of it affected by the default, by giving ten (10) days written notice to the defaulting Party or Parties.

In the event this Agreement is terminated, City, RWRA, Developer, and the Agency shall be (i) relieved of any executory obligations under this Agreement, (ii) released from undertaking any additional obligations as provided in this Agreement.

This Agreement shall not terminate upon the execution of any agreements required or

City, Agency, RWRA, or Developer shall not be deemed to be in default in the performance of any obligation on such parties' part to be performed under this Agreement, other than an obligation requiring the payment of a sum of money, if and so long as the non-performance of such obligation shall be directly caused by Unavoidable Delays; provided, that within thirty (30) days after the commencement of such Unavoidable Delay, the non-performing party shall notify the other party in writing of the existence and nature of any such Unavoidable Delay and the steps, if any, which the non-performing party shall have taken or planned to take to eliminate such Unavoidable Delay (provided, however, that a failure to give such notice timely shall not be a default hereunder or impair the non-performing party's immunities hereunder or account of Unavoidable Delay, unless the failure to give such notice

timely actually prejudices the other party). Thereafter, the non-performing party shall, from time to time, on written request of the other party, keep the other party fully informed, in writing, of further developments concerning such Unavoidable Delay and the effort being made by the non-performing party to perform such obligation as to which it is in default.

Any notice to be given under this Agreement shall be in writing, shall be addressed to the party to be notified at the address set forth below or at such other address as each party may designate for itself from time to time by notice hereunder, and shall be deemed to have been given upon the earliest of (i) three (3) days following deposit in the U.S. Mail with proper postage prepaid, Certified or Registered, Return Receipt Requested, (ii) the next business day after delivery to a regularly scheduled overnight delivery carrier with delivery fees either prepaid or an arrangement, satisfactory with such carrier, made for the payment of such fees, or (iii) receipt of notice given by telecopy or personal delivery:

RECITALS

WHEREAS, Owner is the owner of certain tracts of real property consisting of approximately one hundred and ninety nine (199) acres, more or less (hereinafter referred to as the "Subject Property" see also Exhibit A), which is located in the northeast corner of the intersection of the Wendell Ford Expressway and Kentucky Highway 54 in Daviess County, Kentucky; and

WHEREAS, the Subject Property, which is presently located in an unincorporated area of Daviess County that is contiguous to the corporate boundaries of the City, when annexed, developed, and/or sold, will utilize and benefit from, various municipal services, including public safety, sanitary sewer, water, and electric utilities; and

WHEREAS, the social and economic well being of the City is directly related to, and in many respects dependent upon, the substantial growth of the City and its tax revenue base through annexation of contiguous territories. In

order to meet various capital needs, especially in the area of public safety, provide and maintain infrastructure and other public facilities, promote economic development, and continue to provide affordable, quality municipal services to taxpayers; and,

WHEREAS, the City intends to submit to the state a request for a financial partnership (Tax Increment Financing) in funding the necessary infrastructure for developing in this area; and,

WHEREAS, as an incentive to incorporate the entirety of the Subject Property into the City through consensual annexation in order to make all municipal services available to said property and to facilitate overall municipal growth, the City desires to reimburse Developer for the cost of the construction of various public facilities and improvements dedicated to public use and maintenance within or for the direct benefit of the property, in an amount not to exceed twenty-five million dollars (\$25,000,000.00), the total cost of the public facilities, or the total ad valorem (excluding school tax), net profits, and occupational tax revenues derived from any property located therein, whichever is less, over a designated twenty (20) year period.

NOW, THEREFORE, in consideration of the above recitals and the mutual covenants and conditions contained herein, the parties agree as follows:

1. **ANNEXATION:** Upon the approval and execution of this Agreement by the parties, Developer shall proceed within the next six months with formal application for consensual annexation by the City of the Subject Property and consisting of approximately one hundred and ninety nine (199)

acres, more or less, and shall give its consent to, and in all other respects, support an annexation ordinance proposed to the Owensboro Board of Commissioners for adoption, pursuant to applicable law. The Owner agrees to convey fee simple title to Developer to portions of the Subject Property as and when development of the Subject Property progresses.

In consideration of the foregoing, the City or its designated agency, shall accept and assume maintenance of, all public facilities approved by the City Engineer and constructed by or for the Developer within the Subject Property to be annexed, including streets, (both city and state maintained) utilities, roadways, alleys, curbs, gutters, parks, bicycle/pedestrian trails, and public infrastructure (including sanitary sewers, stormwater drains, inlets, and retention basins, but excluding common areas), or other public improvements or right-of-way dedicated to public use and maintenance on the final development plan or plans and the final subdivision plat or plats approved by the Owensboro Metropolitan Planning Commission and filed of record in the Office of the Daviess County Clerk, hereafter referred to as "Public Facilities." Once fully completed to the approved specifications, all maintenance of the Public Facilities required hereunder shall be performed by the City according to its approved maintenance schedule, as may be changed from time to time.

2. ZONING: Developer intends to develop the Subject Property as a Mixed Use Development including commercial, professional, office, retail and multi-family uses. The parties hereto acknowledge, understand and agree that the incentives herein provided by the City are based on the Mixed Use

Development proposed by Developer at the time of this Agreement and Developer shall not seek rezoning for any other use of any unit, tract, lot or individual parcel within the Subject Property which it holds legal title to or has a vested or controlling ownership interest in, without the approval of the Owensboro Metropolitan Planning Commission and shall, in any conveyance to another person or entity, ensure that this restriction runs with the land as to subsequent owners. This restriction shall only run with the land and be in effect for the period of time that Developer receives any reimbursement under this Agreement.

3. INCENTIVES; REIMBURSEMENT FOR COST OF PUBLIC FACILITIES; CALCULATION OF TAX REVENUES; LIMITATIONS:

(A) Incentives: In consideration of the consensual annexation of the aforementioned Subject Property, the City hereby agrees to reimburse Developer for the verified cost of the Public Facilities required to be constructed, improved or consumed by Public Facilities as provided for in Section (C)1. below, its employees, agents or contractors, within or for the direct benefit of the property annexed herein, subject to the terms, conditions, and limitations set forth herein, whether incurred prior to the date hereof or thereafter. It is hereby agreed that the costs of Public Facilities incurred by Developer up to the date hereof equals \$906,879.63.

(B) Public Facilities: In addition to those stated above, and for purposes of this section, Public Facilities include those items listed as "Recoverable Costs" on Attachment 1 and streets (both city and state

maintained), roadways, curbs, gutters, public street medians, and infrastructure (including water pipes, sanitary sewers, storm drains), inlets, retention basins, shown and dedicated to the City on any final subdivision plat approved by the City Engineer and by the Owensboro Metropolitan Planning Commission and filed of record in the office of the Daviess County Court Clerk) both within or for the direct benefit of the property being annexed.

(C) Reimbursement for Public Facilities; Source of Funding:

1. The City shall reimburse Developer for the actual costs incurred (this may include interest on debt incurred by the Developer which is directly attributable to the cost of eligible reimbursable expenses) in connection with the construction of Public Facilities within, or for the direct benefit of, the Subject Property upon the release of any public improvement bond or other surety and submission of an itemized invoice properly documenting the same, including the fair market value of the acreage consumed by the Public Facilities including roads, parks, streets and retention basins. The parties have agreed that the fair market value of the acreage consumed by the Public Facilities shall be calculated at \$165,000 per acre, or applicable portion thereof, throughout the term of this Agreement. If the parties are unable to agree upon the fair market value of the contributed acreage, the value shall be determined by an independent third party appraiser to be chosen by the mutual agreement of the parties. Developer shall submit invoices to the City's Finance Manager on a quarterly basis. Upon verification and approval by the City Engineer, the Finance Manager shall process the invoice(s) for payment. Payments for verified and

approved invoices are paid in the months of February, May, August, and November provided the Developer submitted the applicable invoices at least 30 days prior to the first day of each payment month.

2. Expenses to be reimbursed by City to Developer under this Agreement shall be paid solely from all real and personal property, occupational, and net profits tax/fee revenues (excluding school taxes/fees, franchise bank deposit taxes, any and all in lieu of present or future taxes/fees, and any taxes levied and restricted to a specific purpose) derived by the City from the Subject Property, hereafter referred to as "Tax Revenues," over a maximum period of twenty (20) years (the "Reimbursement Term"). The twenty (20) year Reimbursement Term shall commence upon receipt of a written request for same by the Developer to the City, or, automatically five (5) years from the date of execution of this Agreement, whichever first occurs. The City's obligation to reimburse Developer for the cost of public facilities shall commence on the first day of the next fiscal quarter after the twenty (20) year term begins.

3. It is understood that all reimbursements provided in this Agreement shall be made solely to the present developer and not to any subsequent developer, purchasers, tenants, or other interests present or future.

4. The City intends to seek the creation of a state sanctioned Tax Increment Financing (TIF) district that will include the Subject Property. In connection therewith, the City will incur various consulting and professional fees ("Consulting Costs"). Upon final approval of the TIF by all necessary governmental agencies, Developer agrees to reimburse the City for

one-half of the Consulting Costs, up to a maximum reimbursement of \$70,000.00 to be paid from the proceeds of the first annexation (TIF) reimbursement received by Developer.

(D) Accounting: The Director of Finance and Support Services and the Finance Manager are authorized and directed to collect and deposit all Tax Revenues derived by the City from the Subject Property annexed hereby, in a separate, dedicated account established for the Subject Property incorporated by the City through consensual annexation, for the twenty (20) year Reimbursement Term designated herein. To assist the Finance Department in tracking tax revenues derived from the development, sale, and/or lease of real and personal property within the Subject Property, Developer shall, at its own expense, promptly provide the City with a copy of the final subdivision plat approved by the Owensboro Metropolitan Planning Commission and filed in the Office of the Daviess County Clerk, any deeds of conveyance, and the names and mailing addresses of any person, firm or corporation with a leasehold interest in any portion of subject property. Developer will use its best efforts to include in all deeds of conveyance or leases of any portion of the Subject Property a provision requiring the grantee or lessee, as the case may be, to comply with the reporting requirements of the City as to Tax Revenues in order to enable the City to pay Developer the reimbursement provided for hereunder. During the term of this Agreement, Developer shall also notify the City's Director of Finance and Support Services of the sale, transfer, and/or lease of any portion of subject property to any other person or entity for commercial development or

other use by providing a copy of the deed of conveyance or the name and mailing address of any person, firm or corporation with a leasehold interest.

It is agreed that in the event the Developer sells, transfers and/or leases any part of the subject property, Developer shall continue to receive the incentive payments as defined in this Agreement. It is understood that the incentive payments are to be paid directly to the Developer regardless as to who owns and/or leases the Subject Property provided the Developer is in compliance with all terms of this Agreement.

Additionally, payment under this Agreement is contingent upon those entities or persons from whom such Tax Revenues were derived, properly reporting such to the City of Owensboro. In the event that an entity or person does not properly report such Tax Revenues in a sufficient format to enable the City to attribute those Tax Revenues to the Subject Property, the payment will be withheld until a proper reporting has been received and processed. City and Developer agree that both shall immediately utilize any and all available means or authority to require those entities or persons to immediately and properly report such Tax Revenues so as not to delay further payment to Developer.

(E) Limitation on Reimbursement of Expenses:

1. The City's maximum liability to Developer for reimbursement of the cost of qualified Public Facilities shall not exceed twenty-five million dollars (\$25,000,000.00), the total verified cost of the public facilities, or the total sum of all Tax Revenues collected by the City from the Subject Property, whichever is less, over the designated twenty (20) year

Reimbursement Term. Tax Revenues collected by the City from the Subject Property prior to the commencement of the Reimbursement Term are not eligible for payment to the Developer under this Agreement. The City shall reimburse Developer for qualified expenses upon receipt of sufficient dedicated Tax Revenues under Sections 3(C)(2) of this Agreement.

4. TERM: This Agreement shall commence upon its execution by both parties and in the absence of a default by either party, shall remain in full force and effect for the duration of the designated twenty (20) year Reimbursement Term, or until such time as all terms and conditions set forth herein have been satisfied, whichever first occurs.

5. DEFAULT; REMEDIES: This Agreement may be terminated by the City, by written notice, in the event Developer breaches any one or more of the terms and conditions set forth herein, including failure to timely complete all public improvements as per applicable ordinances, Planning and Zoning requirements, and the City's Private Development Policy which is incorporated herein by reference as Exhibit 2, and fails to cure said breach within a reasonable time after written notice thereof. This Agreement may be terminated by Developer in the event the City fails to reimburse Developer for qualified public facility expenses on the terms and conditions set forth herein, and fails to cure said breach within a reasonable time after written notice thereof by Developer.

Upon a material breach of this Agreement by either party, the non-breaching party shall be entitled to all remedies at law or equity, including but not limited to, specific performance or mandatory injunctive relief, rescission, or

compensatory and consequential damages arising therefrom; provided, however, a material breach by the City notwithstanding, under no circumstances shall the City be required to de-annex property annexed pursuant to this Agreement, which process is a discretionary and non-negotiable legislative function, nor shall the City's total liability ever exceed the total verified cost of the public facilities or the total sum of all Tax Revenues collected by the City from the Subject Property, whichever is less.

6. NOTICES: Any written notices or requests required under the terms of this agreement shall be given to the following:

7. AGREEMENT NULL AND VOID: This Agreement shall terminate, and otherwise become null and void, and neither party shall have any further liability to the other, if the Subject Property described herein is not incorporated into the City by the Owensboro Board of Commissioners or the Commonwealth of Kentucky through consensual Annexation or, if for any reason, the Subject Property is de-annexed at any time. Additionally, the Developer shall have the right to terminate this Agreement if the Subject Property described herein is not incorporated into a tax increment financing incentive agreement between the Commonwealth of Kentucky, or a department or agency thereof, and the City of

Owensboro, or a department or agency thereof, at any time prior to the Reimbursement Term.

8. ENTIRE AGREEMENT: This Agreement constitutes the entire agreement and understanding between the parties and supersedes all prior agreements, promises, communications, representations, whether oral or written, by any employee, officer, or representative of either party hereto. There are no promises, representations, covenants, undertakings, restrictions, or conditions, other than those expressly set forth herein. Any subsequent amendment hereto shall be in writing and executed by authorized representatives of both parties. This Agreement shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns, provided, however, that this Agreement shall not be transferred or assigned at any time by Developer without the express written consent of the City.

9. SEVERABILITY: The provisions of this Agreement are independent of and severable from each other, and no provision shall be effected or rendered invalid or unenforceable by virtue of the fact that for any reason, other provisions herein may be invalid or unenforceable, in whole or in part. If a court of competent jurisdiction determines that any provision of this Agreement is invalid or unenforceable as written, a court may interpret, construe, rewrite or revise such provision, to the fullest extent allowed by law, so as to make it valid and enforceable consistent with the intent of the parties. In the event a court of competent jurisdiction finally determines that any portion of this agreement is

invalid or unenforceable as written, neither party shall have any liability to the other as a result thereof.

IN WITNESS WHEREOF, the parties have executed this Memorandum of Agreement as of the day and year first hereinabove written.

SECTION 3 AGENCY'S COVENANTS

3.1 New Revenues Requirement. The Agency shall use reasonable efforts to have each Area Business maintain separate tax numbers for each business situs in the Footprint (the "Account Numbers") where the Area Business generates State Taxes as defined and identified in Section 4.4 from locations or activities from both within and outside the Footprint. The Account Numbers shall be used exclusively to report State Taxes received by the Commonwealth with respect to the Footprint.

3.2 Minimum Capital Investment.

(a) The Parties agree that the Minimum Capital Investment for the Project is Twenty Million Dollars (\$20,000,000) (the "Minimum Capital Investment"). The Minimum Capital Investment shall include all Capital Investment attributable to the Project on or after July 30, 2015.

(b) The date by which the Minimum Capital Investment is expected to occur is January 1, 2020 (the "Capital Investment Date").

(c) The Agency shall certify it has met the Minimum Capital Investment requirement on or before the Capital Investment Date by submitting Exhibit D within 30 days of the Capital Investment Date or as soon as the Minimum Capital Investment has been made, whichever occurs first.

3.3 Verification of Approved Public Infrastructure Costs. Beginning with the Commencement Date, the Agency shall submit a semi-annual Affidavit of Capital Investment, substantially in the form of Exhibit D, certifying to the Authority the Capital Investment made in the Project, and shall include a summary of the actual expenditures made with respect to Approved Public Infrastructure Costs during the previous six months (with the exception of the report due July 31, 2017, which will contain documentation pertaining to Capital Investment and Approved Public Infrastructure Costs incurred from July 30, 2015 through June 30, 2017). The Agency shall include documentation of other non-recoverable Capital Investment as well with similar detail. Once the Minimum Capital Investment requirement is achieved, the report required by this Section shall then be filed on an annual basis (due July 31st of each year) until the Project is completed and the total

expenditures for Capital Investment and Approved Public Infrastructure Costs have been made. The Affidavit of Capital Investment shall be verified by an independent certified public accountant when: (i) the Minimum Capital Investment threshold is achieved, (ii) the investment in Approved Public Infrastructure Costs equals or exceeds Total Approved Costs, and (iii) the development of the Project is completed and the total expenditures for Capital Investment and Approved Public Infrastructure have been made. The reports required by this Section shall be made using a form substantially similar to Exhibit D attached to this Agreement.

3.4 Duplication Prohibited. Notwithstanding any other provision in this Agreement, the Agency shall not count any one cost in more than one category or attempt to recover the same cost more than once.

3.5 Net Positive Economic Impact of the Project. The Commonwealth's participation in the Project, and the disbursement of Increments pursuant to this Agreement, are contingent upon the Project resulting in a net positive economic impact to the Commonwealth. In the event that the scope or design of the Project is revised from the description provided in this Agreement, including Exhibit A, or if the completed construction of the Project does not adhere to the description of the Project provided in Exhibit A, the Authority reserves the right to: i) reevaluate the economic impact of the Project and to redetermine the Total Approved Costs and Approved Public Infrastructure Costs available for Increments, or ii) to declare the failure to construct the Project represented in Exhibit A to this Agreement an Event of Default and to pursue any of the remedies enumerated in Section 7.2 of this Agreement.

3.6 Request for Disbursement of Increment. The Agency shall submit all information required by this Section 3 as well as a Request for Disbursement in a form substantially similar to Exhibit E in order to be eligible for Increment disbursement as provided in Section 4.

SECTION 4 ACTIVATION AND INCREMENT DISBURSEMENT

4.1 Total Approved Costs. The Authority has authorized a maximum of Twenty Million, Five Hundred Seventy-One Thousand and 00/100 Dollars (\$20,571,000) for the support of the Approved Public Infrastructure Costs associated with the development of the Project. The Total Approved Costs shall be equal to the lesser of (i) Total Approved Costs as set forth herein, or (ii) the actual amount of Approved Public Infrastructure Costs expended, as verified by the Authority pursuant to Section 3.3 of this Agreement. The payment of Increments for the support of Approved Public Infrastructure Costs is contingent upon compliance with all terms of this Agreement.

4.2 Activation. The Activation Date is the date on which the time period for the pledge of Incremental Revenues shall commence and must be set within two years from the Commencement Date (as defined in Section 1.2 of this Agreement). To establish the Activation Date, the Agency shall notify the Authority by submitting the

Notice of Activation attached as Exhibit F to this Agreement. The Authority may, at its sole discretion, approve the extension of the two-year period to establish the Activation Date to no more than four years from the Commencement Date in accordance with KRS 154.30-010(1) upon the submission by the Agency of the Activation Date Extension Request form attached as Exhibit G to this Agreement. The extension of the Activation Date period shall only be valid when the Activation Date Extension Request is approved and executed by any authorized signatory (as set forth in the Authority's Bylaws) for the Office of the Secretary of the Cabinet for Economic Development or any authorized signatory (as set forth in the Authority's Bylaws) for the Office of Financial Services, but formal action of the Authority shall not be required.

4.3 Increment Payment. Provided that the Minimum Capital Investment is confirmed by the Authority as set forth in Section 4.7, and the Project has activated in accordance with Section 4.2, and the Agency has incurred Approved Public Infrastructure Costs that have been verified by the Authority pursuant to Section 3.3, and the Agency has otherwise complied with the terms of this Agreement, the Commonwealth agrees to pay the Increment determined pursuant to Section 4 of this Agreement. The Agency shall be entitled to receive Increments for each calendar year during the Term of this Agreement (as defined in Section 6), beginning with the first calendar year after the calendar year in which the Activation Date occurs, until: (i) the date on which the aggregate Increment(s) paid to the Agency by the Commonwealth on a cumulative basis during the term of the Agreement equals the Total Approved Costs; (ii) the effective date of either Party's election to terminate this Agreement pursuant to Section 6; or (iii) there is an Event of Default pursuant to Section 7 of this Agreement. The Commonwealth shall have no obligation to make payments if there is no Increment available for distribution in any given year, or to pay more than the amount available for distribution. The recovery of Approved Costs and payment from the Commonwealth is contingent upon available Increment.

4.4 Increment. The amount of the Increment shall be eighty percent (80%) of Incremental Revenues (difference between New Revenues and Old Revenues) as defined in Section 1. Incremental Revenues shall include state revenues resulting from the following taxes:

- (a) Ad Valorem Property Taxes levied under KRS 132.020(1)(a) (the "Ad Valorem Property Taxes");
- (b) Individual Income Taxes that an Area Business is required to withhold from the wages of its employees pursuant to KRS Chapter 141, and attributable to work or services performed within the Footprint, or within and without the Footprint if the services performed without the Footprint is incidental to the Area Employee's service within the Footprint ("Income Taxes"); and
- (c) Sales Taxes levied under KRS 139.200 ("Sales Taxes")

(the taxes identified in this Section 4.4 shall be collectively referred to as the "State Taxes") which were identified and approved by the Authority for the Project. The

determination of Old Revenues and New Revenues shall be based upon the State Taxes identified in this Section 4.4 for the Project Footprint.

4.5 Old Revenue Determination. Because Incremental Revenues are measured by subtracting Old Revenues from New Revenues, a determination of Old Revenue is necessary prior to a distribution of the Increment. Notwithstanding anything in this Agreement to the contrary, before the Commonwealth shall be required to pay to the Agency any Increment to which the Agency shall be eligible for each year during the term of this Agreement, the Old Revenue Determination described in Section 5.4 of this Agreement must be calculated and set forth as Exhibit H to this Agreement. Exhibit H shall set forth the amounts which are deemed to be Old Revenue for the Base Year and shall set forth the CPI or other adjustments to be made annually.

4.6 New Revenue Determination. The projected New Revenues as set forth in the Consultant's Report are set forth in Exhibit C and are attached and incorporated herein. The requirements set forth in Section 4 shall be used by the Agency to calculate in each calendar year during the term of this Agreement, with reasonable accuracy, the amount of actual New Revenues for that calendar year (the "New Revenues Determination"). The Agency shall submit the New Revenues Determination in writing to the Authority for review, along with a report which includes (i) the name of each Area Business and (ii) all state tax account numbers used by each Area Business in connection with the Footprint.

4.7 Minimum Capital Investment. Notwithstanding anything in this Agreement to the contrary, the Agency shall not receive any disbursement of the Increment until the Minimum Capital Investment is confirmed. The Minimum Capital Investment shall be reported to the Authority on the form prescribed in Exhibit D of this Agreement. If the Minimum Capital Investment is not certified by the Capital Investment Date (pursuant to Section 3.2 of this Agreement), the Incremental Revenues shall be forfeited to the Commonwealth.

4.8 Request for Increment Disbursement. The submission by the Agency of complete and accurate information required under this Section along with a Request for Disbursement (substantially in the form of Exhibit E or other format acceptable to the Agency and the Authority) shall constitute a formal request for the Increment. The Authority, with assistance from the Department of Revenue, shall review and verify the information submitted and shall certify the verified amount pursuant to KRS 154.30-090.

4.9 Time of Payment. For each calendar year beginning with the calendar year after the calendar year in which the Activation Date occurs, ninety (90) days after the Authority notifies the Agency that the information submitted in connection with a Request for Disbursement of Increment is complete and in order, the Commonwealth agrees to pay to the Agency the Increment, provided that all conditions provided in Section 4 of this Agreement have been met.

4.10 Compliance Certification. Notwithstanding anything in this Agreement to the contrary, if the Authority has not notified the Finance and Administration Cabinet pursuant to KRS 154.30-090 that the Agency is in compliance with the terms of this Agreement, the Incremental Revenues shall not be disbursed until such time as the certification has been provided by the Authority.

4.11 Use of Increment. The Agency covenants and agrees that it will use the Increment received pursuant to this Agreement for the support of Approved Public Infrastructure Costs in connection with the Project. If the Increment is used to support notes, bonds or other debt obligations with respect to the Project, the Agency shall utilize the Increment received in a given year to (1) pay the current financing costs, and (2) maintain a fully funded reserve. Any excess beyond that used for the purposes in the preceding sentence shall be used to provide for the retirement or defeasance of all or a portion of the remaining financing costs secured by the Increment. If, as of the Termination Date, the Increment calculated and paid over the term of this Agreement is insufficient to pay off the notes, bonds or other debt obligations, the parties acknowledge and agree that neither the Authority nor the Commonwealth shall have any liability with regard to the remainder of the notes, bonds or other debt obligations. Within 120 days after the close of the preceding calendar year, the Agency shall provide an annual certification, substantially in the form of Exhibit I to this Agreement, verifying that the Increment(s) received pursuant to this Agreement during the preceding year were used for the support of the Approved Public Infrastructure Costs identified in Exhibit D. The Agency acknowledges and agrees that this disclosure shall be matter of public record that may be subject to disclosure to the General Assembly, provided in response to requests for public records pursuant to the Kentucky Open Records Act or published by the Authority at its sole discretion for the purpose of issuing public reports, publications or any other documentation that the Authority deems necessary.

SECTION 5 OLD REVENUE

5.1 Base Year. The Base Year for the Project shall be 2015, the last calendar year ending prior to the Commencement Date. Upon receipt of the information required in Section 5.3 and 5.4, the Authority shall determine, in consultation with the Department of Revenue, whether the Base Year is a true and accurate depiction of historic revenues for the Footprint. Pursuant to KRS 154.30-010(23), the Authority may consider the three years prior to the Commencement Date (the “Three Year Base”) as an alternative to a single Base Year.

5.2 Old Revenue Adjustment. The Old Revenues shall be adjusted each year by the percentage increase, if any, of the CPI or a comparable index, or an alternative percentage increase determined appropriate by the Authority as set forth in KRS 154.30-010.

5.3 Agency’s Requirements. The Agency shall calculate with reasonable accuracy the Old Revenues for the Base Year, and in doing so, the Agency may make

such assumptions as may reasonably be required, so long as those assumptions are properly documented and supported. The Agency shall submit its calculations of the Old Revenues for the Base Year to the Authority for review and approval, along with a report including; (i) the name of each Area Business, and (ii) all state tax account numbers used by each Area Business in connection with the Increment Footprint.

5.4 Determination of Old Revenue. The Authority shall review the information submitted by the Agency with regard to Old Revenues and shall determine, in consultation with the Department of Revenue, the amounts which are deemed to be Old Revenue for the Base Year and indicate any applicable annual adjustments. The determination of Base Year, Old Revenues and annual adjustments shall be set forth in Exhibit H and incorporated into this Agreement. Neither the amount set forth as Old Revenue for the Base Year nor the set adjustment shall be subject to change without a written Amendment to this Agreement executed by the parties hereto.

SECTION 6 TERM

The term of this Agreement shall begin on the Commencement Date (as defined in Section 1 of this Agreement). The Agreement shall then automatically renew for nineteen (19) consecutive years pursuant to KRS 154.30-070 beginning with the first Annual Termination Date, unless either party gives written notice of their desire to discontinue the Project at least sixty (60) days prior to the Annual Termination Date during any year. Notwithstanding the above, in no event shall the term of this Agreement extend beyond June 16, 2055.

SECTION 7 DEFAULT

7.1 Events of Default. Each of the following events or occurrences shall constitute an "Event of Default" under this Agreement:

(a) Bankruptcy. If there is filed by or against the Agency a petition in bankruptcy, or a petition for the appointment of a receiver or trustee, and any such petition is not dismissed within sixty (60) days after the date of filing, or if the Agency files a petition for reorganization under any of the provisions of the Bankruptcy Code or any similar Law, or if the Agency makes a general assignment for the benefit of creditors, or if the Agency makes any insolvency assignment or is adjudicated insolvent by any court of competent jurisdiction; or

(b) Covenants, Warranties and Representations. If any warranty or representation made by the Agency in this Agreement shall at any time be false or misleading in any material respect, or the Agency shall fail to keep, observe or perform any of the terms, covenants, representations or warranties set forth in this Agreement or is unable or unwilling to meet its obligations thereunder; or

(c) Obligations to the Authority. If the Agency shall fail to observe, perform or comply with the terms, obligations, covenants, agreements, conditions or other provisions of this Agreement or any other agreement, document or instrument related to the Project; or

(d) Failure To Construct the Project. If the Capital Improvements and Approved Public Infrastructure Costs associated with the Project (as represented by the Agency in this Agreement and the attached exhibits in order to obtain the Commonwealth's support for the Project) are not completed, or the design and scope of the Project is changed without the prior approval of the Authority in accordance with Section 8.5 of this Agreement.

7.2 Remedies of the Authority Upon Events of Default. Notwithstanding anything to the contrary set forth herein, upon the occurrence of an Event of Default, the Authority, in its sole discretion and without notice to the Agency, may at any time exercise any one or more of the following rights and remedies:

(a) the right to suspend all or a portion of the Increment payment with the exception of the portion of the Increment necessary for payment of Increment Bonds (as defined in KRS 154.30-010) or securing of Increment Bonds in which case suspension is prohibited by KRS 154.30-070(1)(h); and/or

(b) the right to seek an appropriate legal or equitable action to enforce the Agency's performance of the terms, covenants and conditions of this Agreement; and/or

(c) the right to re-determine the Approved Costs available for Increments; and/or

(d) the right to revoke the Commonwealth's participation in the Project; and/or

(e) in the event of a false or misleading representation or warranty, the right to recover Increments previously paid; and/or

(f) termination of the Agreement; and/or

(g) the right to exercise any other rights or remedies that may be available to Authority pursuant to this Agreement or under applicable laws, including the recovery of previously disbursed Increments.

7.3 Increment Bonds. Notwithstanding Section 7.1 and the default remedies of Section 7.2, KRS 154.30-070(1)(h) prohibits the withholding by any party to this Agreement of any incremental revenues if Increment Bonds (as defined in KRS 154.30-010) are outstanding that are secured by a pledge of those incremental revenues.

EXHIBIT G: PLANNED RWRA IMPROVEMENTS

- (1) Ultraviolet Disinfection at East Wastewater Treatment Plant (WWTP).
 - (a) This initiative shall involve plant upgrades and treatment enhancements to disinfection systems at the East WWTP. Construction shall include structural modification/additions including mechanical and electrical facilities necessary for the installation of UV disinfection, in order to replace the existing chlorination/de-chlorination systems.
- (2) Electrical upgrades at East WWTP.
 - (a) This initiative involves installation of electrical infrastructure to support the new UV Disinfection system in Subsection (1), and the new bar screen in Subsection (3), as well as modernization of deficiencies in the existing electrical infrastructure, including redistribution of treatment facility electrical loading. This initiative must be designed and constructed in conjunction with the initiative in Subsection (1).
- (3) Bar Screen/ Headworks Upgrades at East WWTP.
 - (a) This initiative shall include multiple measures that collectively upgrade the headworks of the East WWTP to provide additional capacity and redundancy for necessary treatment processes. Construction shall include modifications to the influent piping to include flow metering and re-routing flow through a modified grit chamber. The project shall also involve expanding the plant facilities from one bar screen to two bar screens. This will be accomplished by moving the bar screen location to an existing rapid mix structure that will be reconfigured to facilitate the two bar screens. This project will enable the ability to properly screen flows coming into the plant and provide redundancy to allow for maintenance/repair activities to be performed, which are not being adequately met at the plant currently. This initiative will necessitate several modifications to and eliminations of other existing facilities in the plant headworks.
- (4) Generator Replacement at East WWTP.
 - (a) This initiative involves the installation of a new higher capacity back-up generator to provide for previously mentioned initiatives in Subsections (1) and (3), as well as provide emergency power for higher flow volumes projected. The present generator is rated at 800 KW, and it is anticipated that the generator will need to be expanded to approximately 1000 KW. This will help assure that adequate electrical service is maintained during power outages.
- (5) Ragu Pump Station upgrades.
 - (a) This initiative shall involve upgrades to the Ragu Pump Station to provide wastewater service to the Project and surrounding area to direct flow away from the combined sewer system. This initiative shall include provisions for an additional

storage chamber next to the existing pump station, upgrades to pumps/equipment at the pump station, and upsizing of the force main from the pump station to the East WWTP.

EXHIBIT D
Financing Plan

The Plan for Financing the Project

To provide funding support for the needed capital improvements set forth in the Development Plan and to provide support for the Project and provide development assistance, the City of Owensboro ("City") plans to create the Gateway Commons Development Area pursuant to the provision of KRS 65.7041 to KRS 65.7083 and to utilize a portion of the new incremental revenues generated to support the financing of public infrastructure improvements.

The plan provides that the City will pledge 80% of the new incremental revenues, generated from within the Development Area, from real property taxes and occupational taxes over a 20-year period to pay for certain project costs. It is understood that the local revenues from the Development Area that were being generated prior to the Project's development (the baseline) shall not be subject to any pledge of revenues to support the Project.

In addition, the plan provides for the City to submit an application to the Kentucky Economic Development Finance Authority (KEDFA) to seek a pledge of 80% of new incremental state revenues from the footprint of the Project, to provide funding for approved public infrastructure costs.

Financing Plan

The Project is made up of both public and private components. The total cost of the project is estimated to be approximately \$335.3 million. This includes approximately \$273.2 million in private expenditures and \$62.1 million in qualifying public infrastructure costs.

It is expected that certain public infrastructure costs and all private development costs of the project will be financed privately by the developer. While this private financing may include tax-exempt tax increment financing bonds, there will be no bonds or other debt issued that will be guaranteed by a public entity to finance this project. A portion of the incremental revenues pledged in this agreement will be granted to the developer or a trustee on a receipts basis, as outlined by KRS 154.30-090. The pledge of these incremental revenues is critical to the affordability of financing the project.

The developer has discussed the proposed development with several lenders and underwriters and has received positive feedback on the financing of the proposed project costs. Until the structure of the deal is finalized – and the balance of public and private cost sharing delineated – it is too early at this time to detail the financing costs of the project. The developer has strong relationships with many of the country's leading lending institutions and is confident in their ability to obtain the financing for the project costs once the aforementioned public revenues are formally pledged.
