Facilities, Transportation, Safe Schools and Healthy At Work

Transportation:

- Working on 8 Hour Update for first week in August. Will be conducted by Dusty Galloway.
- Have discussed utilization of TANK with Covington Transportation Director. At this point, they have not made a decision.
- Transportation webinar on 7/15 presented some potential problems such as routes, sanitizing, etc...
- Will need to arrange for buses to pick up students by school due to some of the changes at this time. However, this can change at any time.
- New fuel tank will be installed at bus lot in near future.

Facilities:

- Painting continues at NHS. At this point we have most of the classrooms painted we had targeted.
- Ceiling tile and LED lights are in most of the hallways at this point.
- Will be starting on taking out lockers in the HS so flooring, etc... can begin.
- Gym floors at NHS and NIS are completed.
- NPS water heaters have been finished.
- NPS siding painting has been finished.
- Waiting on repairs to chiller and hot water heater pumps so they can be installed.
- Local Planning Committee needs to be organized. Will need a board member to serve on the committee.
- Met with GED and discussed requirements on numbers of students, spacing, etc... while using the computer lab.

Safe Schools

- NaviGate 360 is up and running so schools can prepare their Emergency Operations Plan.
- Waiting on information for Trauma Informed training from the state. Each school needs to have an identified Trauma team.

Healthy At Work

- Additional supplies have been ordered and most have come in. Still waiting on hand sanitizer. Gloves are the hardest item to come by at this point so looking for vendors who can provide a delivery date.
- Arranging for signage at this point. Schools are to provide me what they would like and we will arrange for them.
- Sneeze guards have been measured for each school office and Welcome Center. We are now just waiting on quote.
