Date: 08/31/2020

RE: Concrete Pad Eastside Middle School

At this time, I recommend approval for adding a concrete pad to the immediate front of the storage building donated by Southeast Christian. The 4000-psi concrete pad will be 5'x20' and be approximately 4-5" thick. The pad will be used to load and offload equipment that will be stored onsite by Southeast Christian. Likewise, all funding for the concrete slab will be paid for by Southeast Christian at an estimated cost of \$2,400.00.

I recommend the Board approve this request.

Date: August 28, 2020

Regarding: Concrete Pad for Southeast Christian Storage Buildings

Eastside Middle School would like permission to allow Southeast Christian Church to install concrete walkways leading from the existing storage buildings to existing concrete pads on campus, specifically access to the rear gym entrance.

Funding of labor and material will be provided by the Southeast Christian Church as a donation to the school.

Please contact me with any questions or concerns.

Sincerely,

Troy D. Wood
