

September Live RED Report

District News

A big thank you to all of our community partners – Livingston County Helping Hands, Cindy Ward, Livingston County Emergency Management, Livingston County Extension Office, Grand Rivers Chamber of Commerce, Faith Church in Salem, Debbie Seltsam, Ford Motors and the Calvert City Industries Good Neighbor Night Program - for their donations of PPE and supplies to the Livingston County School System.

Live RED Staff Award

Congratulations to Ms. Michele Venable for being selected as the Live RED recipient for the month of September. Her nomination reads: I would like to nominate Michele Venable from LCHS for the LIVE RED award. She went above and beyond to help my daughter during the ALL virtual Home Study days. She made appointments with my daughter to help her and clarify any misunderstandings. One day my daughter misplaced her packet and I was planning on leaving work early to pick it up from the high school but she insisted on delivering the assignments to me at work on her way home.

Family First & Cardinal Connection

Family First & Cardinal Connection are off to a great start. We have been assisting with home deliveries, connecting families to resources, building a new website to better connect with those families, and strategizing about how to creatively accomplish upcoming projects. We are so thankful for a community that has once again provided for the back to school needs. Our centers are well stocked with school supplies, and we have been delivering those items to classrooms all week.

North Livingston

All of our students have done a great job wearing their masks. They have been excellent in the halls, lunchroom and preparing to dismiss. Thank you to parents for helping our scholars to be prepared as we came back.

Also all the teachers have been giving 110%. They are working extremely hard to meet the needs of all of their students from hybrid model to zooming with other students. We have seen teachers giving up planning to help set up computers and Google Classroom for people during their planning time. Others have jumped in to help program computers even from other departments (speech, sped). The teachers have displayed true teamwork.

Livingston County Middle School

It is great to have our students back in the building. The students have been great and we are off to an awesome start!

The LCMS 8th grade softball got off to a great start on September 8th with a 5-1 win over Paducah Tilghman. The LCMS 7th and 8th grade baseball teams also got off to a fast start winning both games with South Marshall on September 8th.

OZONE

Although another school year has started, it's totally different than anything we have ever experienced. Everyone in the Livingston County School System is working hard to make this year a success. It will take all of us working together to do our part to help make this happen.

Ozone will begin on September 21st. The schedule is as follows:

Monday-Thursday: 5:00-6:00 PM Virtual Homework Assistance for OZONE REGISTERED STUDENTS ONLY- and their parents (optional)

Please remember: in order to participate in the afterschool tutoring and homework help, your student must be registered with Ozone...

Tuesday through Thursday: Ozone will be open at LCMS from 3-5 PM

Bus Transportation will be available to designated stops in the county.

If you wish your child to attend, please contact Ms. Tina Lawless about registration and transportation forms. We will follow all school day rules and regulations regarding social distancing, masks, and the A-B schedule already in place. Students in the A group may attend Tuesday & Thursday while B days students will only attend Wednesdays. There is no after-school programming on Fridays.

Letters will be sent students with registration forms already turned in.

If you have any questions, please contact Ms. Tina Lawless at 270-988-3263. Ms. Lawless looks forward to working with the Ozone Program and will do everything she can to make the program a success.

South Livingston

SLES has an amazing staff! They have all worked very hard through these unprecedented times. They have made the needed adjustments as to how their instruction would be provided to their students. Their dedication, flexibility, willingness to change, compassion, and overall love for our students are made prevalent daily. They deserve this needed recognition based on all of the efforts that they put forth in order to truly promote Living Red!

SLES had an amazing start to in-person instruction. It was wonderful to see all of the students' smiling faces. Everything went

extremely well and it was a breath of fresh air to be able to have students back in the classrooms. All health and safety protocols were adhered to and all of the students followed all expectations set forth. We look forward to continuing in-person instruction with rigorous academic excellence and safety protocols being at the forefront daily.

SLES received a monetary donation from WoodmenLife Chapter 674 of Iuka. The generous cash donation was utilized to promote the wellbeing and education of our students. SLES purchased water bottles for each student enrolled at South. Moving forward, the remaining funds will be used to help support our reading/math incentives school-wide. WoodmenLife Chapter 674 of Iuka's commitment to our school and community is making a difference at SLES! We here at SLES would like to extend our gratitude to such a wonderful community partner for their meaningful efforts to support our wonderful student body! [#LiveRED](#)

SLES was spotlighted on WPSD, September 3, 2020, prior to in-person instruction. The article can be accessed by clicking [here](#)

Livingston Central High School

We are so excited to have our kiddos back in the building. Things are going great!

A huge shout out to Ms. Bowles, our amazing art teacher who, with the help of our students and staff created a mural to brighten up the ramp going to the CTE wing. It looks amazing!

Mr. Josh Johnson Music Department

- Music department students are recording and not letting inability to perform live stop them. They are still actively performing the beginning fundamentals at the start of school.
- The students at SLES are starting off learning music in the creative arts class. They have google classrooms available to them if they can access that has videos (so far) about learning music notation.

Mr. Dyer's students in Forensics class is reassembling a skeleton of a dead body (mouse skeleton from an owl pellet). "It is so good to have kids in my classroom!!!" Mr. Dyer
