Consent Agenda Item (Action Item) Create a Maintenance Technician – Level B Position for the School Nutrition Department

Applicable Statute or Regulation: KRS 162.90 Powers and duties of the local board.

Fiscal/Budgetary Impact: Funding will be provided by the Floyd County School Nutrition Program

History/Background: The Floyd County School Nutrition Program is comprised of twelve kitchens. The district participates in the Community Eligibility Program, which has increased the participation of students in breakfast and lunch meals. This increased participation has resulted in the increased need for equipment service and repair. Providing a qualified maintenance technician on staff should actually save the school nutrition program funding since fewer maintenance issues will need to be serviced by outside companies. The need for a maintenance technician that can work on various pieces of equipment such as ovens, ice machines, freezers, and coolers is vital to the program.

Recommended Action: Approve agreement as recommended.
