

Board Report

Jim Seward, District Technology Coordinator
November 2020

E-Rate

We have filed reimbursement for our data (fiber) line between Ben Flora and BHS. We will be receiving \$5,900 back in Federal Funding

ADM Grant

We have been awarded a \$15,000 grant!! I will be working with our team to use this money for technology needs and agricultural class needs.

Monthly Support

As we move to NTI, we are refocusing our support to virtual support with some office-hour support.

Devices

We have installed the BEF cases (thank you BEF!) to the 4/5 laptops. We will be deploying the cases to MS/HS upon return.

We have seen an uptick in device damage (cracked screens, water, etc). We are fortunate to have a reserve to help deploy new devices to students.
