COMMISSIONER’S RECOMMENDATION:

The Commissioner recommends approval of the proposed amended DFPs for Hardin and Scott Counties in accordance with 702 KAR 4:180. APPLICABLE STATUTE OR REGULATION:

KRS 157.420 (4), KRS 157.622, KRS 157.620, 702 KAR 4:180

BACKGROUND:

Existing Policy:

The facilities planning process provides a DFP that contains an assessment of the school district’s attributes and operations including the district profile, demographic information, facility conditions and finances (cost of delivery of services). Local school districts are required to select a LPC to develop a DFP outlining capital construction priorities.

Information reviewed in developing the DFP provides the LPC with a comprehensive view of program and facility needs required to provide an equitable educational opportunity. KDE staff provides the process to be undertaken by the district in an orientation package. Information for KDE review then is developed by the LPC and its consultants.

The LPC, by virtue of its makeup, encourages both community involvement and diversity of ideas. The LPC recommends a DFP to the local board. If the local board does not approve the DFP, it goes back to the LPC for further refinement. However, a DFP submitted for approval by the KBE is the final decision of the local board of education and may or may not reflect the determinations of the LPC.

The proposed submitted DFPs for Hardin County and Scott County were recommended by the LPC and approved by the local boards of education. Attached with the district's facility plan and hearing report are enrollment projections and histories with non-resident student data for the district.

Budget Impact:

There is no impact on KDE funds related to the approval of the DFPs.

GROUPS CONSULTED AND BRIEF SUMMARY OF RESPONSES:

Public forums and a local public hearing were held in the school districts with no significant issues noted. The plans were approved by the local planning committee and school board of the district.
