KCSD ISSUE PAPER

DATE:

12/07/20

AGENDA ITEM (ACTION ITEM):

Consider/Approve the purchase of School Buses for 2021.

APPLICABLE BOARD POLICY:

6.1 Bus Fleet; 4.31 Authority to Encumber and Expend Funds; and 4.7 Inventories

HISTORY/BACKGROUND:

The Transportation Department is requesting to purchase eight (8) 84 passenger buses and move eight (8) current regular route buses into the spare inventory. The daily bus routes are forecast to remain the same from 2020 to 2021. The increase in capacity will improve some overcrowded routes and hedge against adding routes. This strategy is important given the current labor market and shortage of bus drivers.

It is recommended to continue acquiring new buses with air conditioning, Motorola Radio Systems, Central State Camera Systems, Paging Systems, and AVL Tracking Systems. The paging system provides an amplification system for the drivers to manage clear and concise communication with students riding in the back of the bus. The Central States Camera System allows the staff to remove a flash drive from the system to conduct an investigation with the unit still functioning as a recording device. The AVL System provides accurate location and rate of speed for each bus as well as the start and stop time for each route.

The cost of each 84 passenger bus is \$129,901.20 including the additional systems as listed above. Additionally there is a nominal flat rate transportation cost of \$300 included in the total cost.

FISCAL/BUDGETARY IMPACT:

\$1,015,504.00 KISTA Lease for Buses

\$23,205.60 General Fund for Motorola Radio Systems, Central State Camera Systems, & AVL Tracking Systems

\$1,038,709.60 Total Bus Purchase Cost

RECOMMENDATION:

Approve the purchase of School Buses for 2021.
