DATE: December 1, 2020
RE: New 800 Student Elementary School
Bid Package 1; BG 20-142

At this time, I am asking for the Board's approval to pay for the sewer and tap fees for the New East Elementary School (previous Old Mill Elementary) out of Construction Contingency funds in the amount of \$27,050.00.

Currently, there is \$1,402,905.14 in the BG 1 in contingency and after this request, if granted, will leave \$1,375,855.14.

If you have any questions please call me at 502-921-3659.

Equal Education and Employment Institution

Wesley Blyden

**CITY OF MT. WASHINGTON
APPLICATION FOR UTILITY SERVICE**

The undersigned Applicant of the property listed below, herein called "APPLICANT", hereby makes application to receive utility service(s) from the City of Mt. Washington, herein called "SUPPLIER", under the following conditions:

Water Service

1. The Supplier shall provide water service, subject to the limitations hereinafter, provided the connection fee is paid in full by the Applicant and agrees to pay the water rates enacted by ordinance by the Mt. Washington City Council.
2. Said connection fee covers the connection charge and impact fee. The Applicant will be responsible for all plumbing installed on said property beginning at the outlet side of the water meter or the Applicant's property line. The installation shall meet the requirements of the Kentucky Department of Health.
3. No part of such service line to or within the user's premises may be connected with any source of water other than the Supplier's.
4. The Applicant agrees to abide by the rules and regulations of the Supplier's water system and to use the prescribed material and installation prescribed for the portion of the water branch connection provided by the Applicant between the point where the water branch installed by the Supplier ends and any building or other structure located on the premises. The Supplier shall have the final jurisdiction in any question of any service line connecting to its distribution system; it shall determine the allocation of water to users in the event of a water shortage.
5. The failure of a user to pay water charges duly imposed shall result in the water being shut off from the user's property. In addition to all other rights and remedies, the Supplier may terminate this agreement and in such event, the user shall not be entitled to receive, nor the Supplier obligated to supply any water under this agreement.
6. The Supplier will be responsible for the maintenance of that portion of the service line installed by the Supplier and the Applicant will be responsible for the maintenance of that portion installed by the Applicant.
7. The Applicant grants to the Supplier, any and all easements needed by the Supplier across the property of the Applicant to enable the Supplier to provide water service to the applicant, and the Applicant further grants the Supplier permission or an easement to install a water line in the roadway in front of or adjacent to the property line or utility easement of the Applicant, with the understanding that the Supplier will be responsible for any damages to the property other than the normal disturbance of the surface of the ground by the installation of service. The City will not be responsible for seeding or sodding of disturbed surfaces.
8. The City Clerk is hereby authorized and directed to collect for the installation of a water meter that requires rock removal, burrowing under pavement and other contingencies for the installation of water service an "ADDITIONAL INSTALLATION FEE", in addition to any other required fee(s).
9. "Rock removal", "burrowing under pavement" and "contingencies" are to be defined at the discretion of the Supplier, its agents or employees or any other person so designated by the Supplier.
10. In the event it becomes necessary for the Supplier to shut off the water at a user's property, an additional fee specified by the Supplier will be charged.

Sewer Service (inside the City limits only)

1. The Supplier shall provide sewer service, subject to the limitations hereinafter, provided the connection fee is paid in full by the Applicant and agrees to pay the sewer rates enacted by ordinance by the Mt. Washington City Council.
2. Said connection fee covers the connection charge and impact fee. The Applicant shall bring the sewer line to a point located at the edge of the property line or easement of the Applicant and shall bear the cost of installing a sewer line from any building or improvement on the property to the sewer line or easement.
3. The Applicant agrees to abide by the rules and regulations of the Supplier's sewer system and to use the prescribed material and installation prescribed for the portion of the sewer branch connection provided by the Applicant between the point where the sewer branch installed by the Supplier ends and any building or other structure located on the premises.
4. The Supplier will be responsible for the maintenance of that portion of the service line installed by the Supplier and the Applicant will be responsible for the maintenance of that portion installed by the Applicant.
5. The Applicant grants to the Supplier, any and all easements needed by the Supplier across the property of the Applicant to enable the Supplier to provide sewer service to the applicant, and the Applicant further grants the Supplier permission or an easement to install a sewer line in the roadway in front of or adjacent to the property line or utility easement of the Applicant, with the understanding that the Supplier will be responsible for any damages to the property other than the normal disturbance of the surface of the ground by the installation of service. The City will not be responsible for seeding or sodding of disturbed surfaces.

IN WITNESS WHEREOF, we have hereunto executed this agreement this _____ day of _____, 2020.

Applicant: Bullitt County Board of Education

Address: 1040 Highway 44 East

Shepherdsville, KY 40165

Phone: 502-921-3659

Subdivision: Twin Eagles

Lot: n/a

Street: Golden Wing Road

Plumbing Permit No.: To be provided - project is currently under review by Division of Plumbing

***The City is required to have the plumbing permit number prior to the installation of the meter. After the Applicant obtains the plumbing permit number, please contact City Hall at (502) 538-4216 to report that number. Once the number is received, the City will place the installation in the rotation schedule.**

****The location of the meter must be staked by the applicant prior to the installation of the meter.**
