

New Teacher Support 2020-2021

Requesting approval of \$300 per mentor teacher for 14 teachers = \$4,200

Funds will be reimbursed by KDE from New Teacher Support Grant

Explanation: KDE offered a grant for New Teacher Support Funding this year to support teachers who are brand new to the teaching profession. We have 14 teachers who qualified for support and were placed with a mentor teacher. The mentor teachers will each be paid a \$300 stipend for supporting their new teachers throughout the year. Mentor teachers participated in regular planning sessions, classroom visits, and observations with their new teachers in order to provide support. The stipends being paid to the mentor teachers will be reimbursed to the district by the KDE New Teacher Support Grant funds approved in the fall.
