#### b. Approval of the December Minutes

Ms. Buschle asked a question regarding funds that were discussed in the previous meeting and if the money could be used as part of textbook adoption. Mr. Meyers shared that his understanding is that this would be permissible but he asked for an opportunity to verify. Funds were previously allocated for the senior trip that will not be able to happen due to Covid restrictions. Mr. Campbell noted that he isn't opposed to using that money for textbooks but did note he thought the money should be earmarked for something from seniors because it was coming from money allocated for them. Mr. Meyers mentioned that there is also allocated field trip money that could be used either for textbooks or the seniors. Ms. Goetz noted that there hadn't been a motion on this yet. Ms. Buschle discussed the possibility of adding this discussion to next month's agenda. Ms. Gonzalez asked Mr. Campbell if he had any idea on what he would potentially spend those funds on for seniors. Ms. Goetz mentioned the possibility of using a portion of those funds to purchase yearbooks as a gift for all seniors. Mr. Meyers discussed the potential benefits and issues of doing this. Mr. Campbell asked Ms. Gonzalez if she had any plans or what she might have wanted to see last year as she had a child who was a senior last year. She noted that she would like to see the school be able to do something for the senior students, particularly considering the adapted school year they have gone through.

Ms. Buschle noted that someone needs to let Ms. Brown know that there is still a Spanish budget. She also noted that council needs to examine final department order dates for the year. She further noted that department heads need to be alerted/reminded of the date. Mr. Campbell said that he would attempt to reach out.

She noted that some Special Education services have looked a little bit different than in years past. Ms. Buschle discussed the effectiveness that the Read Aloud program has shown. She also noted that some students have had a great deal of success in “virtual” education and how the department can apply the strengths of that style of learning as we move back towards a more traditional model.
