- Remain fiscally solvent/efficient

A. DATA COLLECTION/ NEEDS ASSESSMENT

Describe the needs assessment process for identifying professional learning (e.g. student performance data, data analysis, teacher needs and strengths surveys, etc.)

Further analysis of EOC data, EPAS data, AP data, ACT data and CERT data that was received throughout the school year led to continual adjustments in job-embedded needs. Through job-embedded PD, as well as, scheduled and flexible PD during the 2017-18 school year, next steps for 2018-19 were determined with input from administration, teachers, SBDM members, and consultants. Administrator and teacher discussions following PPR walks also contributed to the next steps that are needed to continue growth.

Curriculum revision is needed in all content areas, but especially in math and English as we go away from Springboard. Likewise, content specific best practices in the all content areas will improve instruction and learning. For Tier II and Tier III interventions, R180 and S44 teachers will continue their professional development to increase effectiveness with these students including reading with Special Education students. With our increased access to assessment data of student groups as well as individuals, structured time to learn what the data is telling us is a further need that we have seen to address the needs of our students. This data analysis effort will also focus on how to identify needs of students in Special Education Reading populations.
