RE: BoardWorks

Boardworks is a K-12 software program that teachers can use to supplement instructions that provides increased visual support for our learners with language barriers along with providing differentiated instruction for students learning new concepts. This program can also be used in-person and/or remotely by teachers and students. In addition, it blends with our existing technology tools and platforms. BoardWorks will be accessible beginning this year and for the majority of the 2021-2022 school year. The total cost of the program is \$25,000 and will be funded through Student Learning, Title II, and reimbursement from ESSER II. Please approve the services contract between BoardWorks Education and Bullitt County Public Schools.
