Franklin Simpson-West Campus- had a total of **65** students represented in conferences.

Total Parents Involved= 2,035 parent conferences/contacts This is the highest total we have had in years. One positive result that came from this school year in a pandemic is the increase in communication among our stakeholders. Since March 16th, parent/guardian contact has been a priority for school and district staff. This expectation is being monitored using Infinite Campus and more than 90% have been involved in the NTI process. We will continue to strive for ways to improve the communication with guardians. We realize that engaging ALL stakeholders, especially our parents, will increase student achievement.
