

SIMPSON COUNTY SCHOOLS
CERTIFIED & CLASSIFIED INSTRUCTIONAL AND
NON-INSTRUCTIONAL ALLOCATION GUIDELINES
02.4331 - Allocation of Staff Positions – 2021-2022 School Year

Only the Board of Education has the authority to create and abolish positions. The authority to determine who fills those positions lies with the Superintendent as recommended by principals in consultation with SBDM councils. The school council has authority, within funds allocated by the Board, to determine the number of persons to be staffed in positions established by the Board.

When allocating personnel to schools, the Board should insure that each school receives its fair share of staff members. Allocations of positions and program opportunities should be approximately the same at each school of an organizational level. KRS 158.010 allows local Boards of education to “provide special programs and services to one (1) or more areas of the district in contrast to other areas where the variation is a reasonable one based on an attempt to equalize the educational progress of the students within the district.” As an example, the Board may allow for differences in student populations such as a high number of at-risk students in a school (districts receive additional funds for at-risk students). High schools and middle schools have traditionally required more staff because of the range of courses offered and low enrollments in some courses valued by the community—career & technical, calculus, physics, etc. Thus the Board should be aware of the differing needs at the various organizational levels. Boards should communicate to both the community and the staff the rationale for the differences in overall teacher-pupil ratios when elementary schools are compared to high schools and middle schools.

Pursuant 702 KAR 3:246 A school Council allocation by the district shall not result in a proposed expenditure that would cause the district budget to hold in reserve less than the required amount set by KRS 160.470. With all applicable statutes and regulations considered, the following guidelines shall guide the allocation of staff to the school-based decision making councils in the Simpson County Schools for the 2021-2022 school year. Adjustments to staffing allocations shall be made to avoid going over cap size as per class average breakdowns on the student count/schedules following the Labor Day weekend and no later than September 15 to reflect changes in student enrollment.

Staffing shall be allocated to provide sufficient staff to meet the maximum class size caps in state law. Maximum class size (KRS 157.360, 702 KAR 3:190):

Entry level	-	24 (divided by 23.0 for program)
Primary (P1-P3)	-	24 (divided by 23.5 for program)
Grade 4	-	28 (divided by 23.5 for program)
Grade 5	-	29 (divided by 23.5 for program)
Grade 6	-	29 (divided by 24.5 for program)
Grades 7-8	-	31 (divided by 24.5 for program)
Grades 9-12	-	31 (divided by 24.0 for program)
West Campus (Long-term)	-	31 (divided by 12.0 for program)

The total teachers are rounded upward to the next whole number.

All other instructional supplies should be purchased and budgeted with the allocation monies provided by the Simpson County Board of Education per student in average daily attendance.

The amount of Section 6 materials and supply funds allocated by the Simpson County Board of Education for 2021-2022 are:

Franklin Elementary	\$100.00 / Projected ADA (un-weighted)
Simpson Elementary	\$100.00 / Projected ADA
Lincoln Elementary	\$100.00 / Projected ADA
FSMS	\$100.00 / Projected ADA

Each school's initial instructional supply allocation is based on 90% of projected FTE average daily attendance due to possible adjustments in average daily attendance projections. This allocation will be recalculated at 100% once the second month ADA growth factor is established.
